

Strong in the Flow of Change

We have determination, a team, a clear vision, and above all, the energy to fulfill the goals defined in the Horizon D program. The invested energy and patient work bring results.

We safely supply energy to our customers, develop new technologies, connect renewable energy sources and invest in the development of new services and digitization of the distribution grid. We know how to react to changes and derive positive results from them, and continue the transformation that contributes to the sustainable growth and value of ČEZ Distribuce. We look to the future with optimism, which is a basic prerequisite for ensuring the satisfaction of our customers.

17,085,837,164

Amount in Czech crowns invested by ČEZ Distribuce in 2023. This is a record-high amount historically. The largest share of investments, a total of CZK 7.42 billion, went into customer buildings, especially the connection of renewable energy sources.

30

In the course of 2023, despite the high increase in connection requests, we managed to reduce the time required to connect customers to the distribution grid to an average of 30 days.

3,790,774

At the end of 2023, almost 3.8 million service points were connected to the distribution grid of ČEZ Distribuce. The Company operates in the regions of Plzeň, Karlovy Vary, Ústí nad Labem, Central Bohemia, Liberec, Hradec Králové, Pardubice, Olomouc, Moravia-Silesia, and partially also in the Zlín and Vysočina regions.

52,109

ČEZ Distribuce connected 52,109 photovoltaic power plants with a total installed capacity of 605.5 MW to the network in 2023. The number of connected facilities rose to a total of 104,700 and the installed capacity to a total of 1.9 GW.

75%

In the course of 2023, digital channels for communication with customers were significantly strengthened, and at the end of the year, 75% of contacts were already made online. For example, the Proud digital application was installed by 99,000 customers during the year, and by the end of 2023, the number of registered customers was almost 386,000.

16,321

Thanks to the digitization of the distribution grid, ČEZ Distribuce has 16,321 remotely measured distribution substations, 5,627 remotely controlled elements and an optical route of 6,034 km.

23,758,019

In 2023, ČEZ Distribuce invested a total of almost CZK 24 million in the development and training of its employees.

8,144,000

This amount was donated by ČEZ Distribuce to support 16 selected entities in the fields of education, culture, cultivation of public space, youth leisure activities and environmental care, and the Company also contributed to the CEZ GROUP SENIORS Endowment Fund.

169,665

ČEZ Distribuce operates lines in the territory of Czechia with a total length of 169,665 km. Of this, 108,055 km are low-voltage lines, 51,590 km are medium-voltage lines and 10,020 km are high-voltage lines.

In October, we reached a significant milestone of 100,000 generating facilities connected to the grid. By the end of 2023, more than 106,000 electricity generating facilities with an installed capacity of almost 7.4 GWh were connected to the grid. During the year, we received and processed 63,000 requests and 52,000 generating facilities were connected. We also newly launched a microgenerator connectivity map on the Proud website and mobile application. Thanks to our efficient processes and **professionally** performed work, we are able to connect approximately 4,000 new generating facilities each month – 99.9% of them within 30 days.

Introduction by the Chairman of the Board of Directors

Ladies and Gentlemen,

2023 was a crucial year for ČEZ Distribuce in many respects. We had the largest investments in history, the biggest number of connected electricity generating facilities, as well as other significant milestones, which are proof that we are able to react quickly to changes and turn them into positive results. We continue to transform the Company and progressively deliver on our Horizon D program goals.

Last year, we connected 52,109 photovoltaic power plants to the grid, with an installed capacity of 605.5 MW. For comparison, in 2022 we connected over 21,000 of them. Again, these were mostly rooftop photovoltaic installations on family homes. But there is also growing interest in connecting wind power plants. Despite the significant increase in connection requests, we were able to reduce the connection time.

A record was also set in the area of investments. We increased our total investment volume to CZK 17.1 billion, the highest ever figure in our Company's history, CZK 2.05 billion higher than in 2022. The largest share of investments – CZK 7.42 billion – went into customer buildings due to increased requirements in the renewable energy sector.

The Company continues to make progress in improving the customer experience, leading to greater digitization and faster resolution of requirements. At the end of 2023, 75% of all customer contacts were made purely online. The use of the virtual assistant Ema, who helps our customers resolve requests more easily, contributed significantly. The Proud mobile application is another important development and is already used by over 100,000 customers. At the same time, we worked on the redesign of the ČEZ Distribuce website, which helps customers solve their needs with its new layout, navigation, and educational videos.

We act as a socially responsible company. As part of the Green Fleet project, we started a gradual change of our vehicle fleet. We are replacing cars with internal combustion engines with electric cars and developing the infrastructure of charging stations. In 2023, we purchased almost 50 electric cars.

In addition to our emphasis on digitization, we also focused on the area of construction and connection of renewable energy sources to cover the needs of our customers. In the Energy Asset Management Section, we managed to implement dozens of system modifications and improvements. These include, for example, the simplification of the pricing of standard connections and relocations or the automation of connectivity calculations for generating facilities and microgenerators. We automated a number of processes related to customer buildings and implemented a new asset management system that helps Asset Management technicians monitor easily and efficiently the status of all elements in the network based on current data.

We made substantial investments into automation, digitization, and improvement of the quality of electricity supplies. Last year, the Distribution System Management Section continued to implement remotely controlled elements in the distribution grid, which helps solve fault events more flexibly and reduce their impact on our customers. On a positive note, we also achieved a favorable value of the SAIDI indicator.

Last year, we managed to digitize the distribution grid significantly – we have 16,321 remotely measured distribution substations, 5,627 remotely controlled elements, and 6,034 kilometers of optical routes.

Among the most significant changes in 2023 was the creation of the new Distribution System Operation Section, where all field employees work as part of a single team. It consists of three units – Grids, Electrical Substations, and Metering and Readings. The reason is to prepare for future challenges, such as the deployment of smart metering, but also to improve the quality of customer care, shorten the unavoidable duration of faults, and especially improve cooperation. We fully confirmed this during the challenging disaster brought by the Pia storm during the Christmas holidays. The disaster required the deployment of more than 600 employees from all departments during the holiday. Almost 200,000 customers found themselves without electricity supplies; we recorded over 2,000 line faults and dealt with more than 3,000 field interventions. The Contact Center handled over 11,500 reports during that period.

ČEZ Distribuce implemented and certified three systems in the field of occupational safety, fire protection, and the environment. We will defend the Safe Enterprise program again in 2024, which is why we focused on verifying the system in place in 2023. As far as the environment is concerned, it is the Environmental Management System pursuant to ISO 14001 and the Energy Management System pursuant to ISO 50001. Both systems are reviewed annually by an external certification company and successfully passed an independent surveillance audit in 2023.

Other key priorities include the field of education. In 2023, we launched another year of the Talent Program, which serves to support the development of key employees and their managerial, communication, and psychosocial skills. Under the program, we addressed the issue of generational change, succession, and corporate culture. We organized another, already tenth, year of Distribution Tests and continued the Prokop Diviš Motivational Program, which was passed by more than 1,500 high school students last year. In 2023, ČEZ Distribuce spent a total of CZK 24 million on the development and education of its employees.

In conclusion, allow me to thank our employees for their excellent work and commitment, our business partners for their cooperation, and our customers for their goodwill.

I wish everyone good health and energy for another successful year.

Ing. Martin Zmelík, MBA

Chairman of the Board of Directors and
Chief Executive Officer, ČEZ Distribuce, a. s.

Key Events of 2023 and 2024 until the Annual Financial Report Closing Date

Key Events of 2023

January

- Partial restoration of the Strančice substation was started in the Center region; a new 22 kV substation building will be built, including the installation of a new protection system and self-consumption.
- By decision of the sole shareholder dated January 13, 2023, Mr. Jakub Hlavica was elected to the position of member of the Board of Directors of ČEZ Distribuce, with effect from April 1, 2023.
- Restoration of the Havlíčkův Brod transformer station was started in the East region; the complete 110 kV HV technology, transformers, 22 kV MV technology will be replaced, including the protection system and self-consumption.

February

- On February 3–5, 2023, the Pit low-pressure area caused an increased fault rate in the distribution grid; 148 faults were recorded with more than 87,000 customers restricted; the Contact Center registered a total of 9,992 calls and the Bezšrávy portal registered 41,785 visits; the most common causes of the faults were trees and branches falling on the power lines.

March

- On March 10 and 11, 2023, the passing low-pressure area caused an increased fault rate in the distribution grid; almost 15,000 customers were restricted and 26 faults were recorded on medium-voltage equipment; the most common causes of the faults were trees and branches falling on the power lines.
- The construction of the new 110/22 kV Nejdek transformer station started in the West region to increase the power input for existing and new customers.
- The construction of a new 110/22 kV transformer station near the existing Dětmárovice power plant was started in the Moravia region; the project is related to the construction of a new 400/110 kV node of ČEPS.

April

- On April 6, 2023, a Memorandum of Cooperation was signed between ČEZ Distribuce and Lesy ČR with the aim of minimizing power outages caused by falling trees growing outside the protective zones of power lines.
- As part of the Safeguard exercise on April 11–17, 2023, organized in Chrást near Plzeň, the readiness of the guarding of a large substation was checked, with the involvement of 70 soldiers of the Army of the Czech Republic, including 60 members of the active reserve of the Plzeň Regional Military Command.
- On April 27, 2023, an emergency exercise was held in Jablonec nad Nisou to verify the readiness of all units of the integrated rescue system when dealing with emergencies in the distribution grid; the topic of the exercise was a power supply outage when a 100 kV tower is damaged by agricultural machinery; the crisis staff of the city of Jablonec nad Nisou was involved in the exercise.

May

- On May 15–26, 2023, a student internship program took place in the field of IT at ČEZ Distribuce; the goal of the initiative was to raise interest and awareness of the Company.
- A construction project initiated by a customer to ensure connection of the traction power station of Správa železnic (Railway Administration) was completed in the East region; the new Stéblová 110 kV substation will enable the connection of a new service point with the required power input of 8 MW.
- The restoration of the high-voltage line Třebovice–Hoštice was started in the Moravia region; the upgrade will strengthen the dual high-voltage line in a total length of 24.5 km, the goal of the reconstruction is to increase the transmission capacity of the line in view of the increase in load.
- Based on the results of the election of members of the Supervisory Board elected by the employees of ČEZ Distribuce, held on May 19–26, 2023, Monika Gibfriedová and Jaroslav Říčař were elected as new members of the Supervisory Board, with effect from September 1, 2023.

June

- On June 1, 2023, there was an organizational change in the Operations & Distribution System Management Section, which was divided into two sections: Distribution System Operation and Distribution System Management; the Grids and Electrical Substations units remained in the Distribution System Operation Section, and the Metering and Readings units were transferred to this section from the Customer Service Section.
- From June 1, 2023, ČEZ Distribuce introduced full digitization of the process of connecting microgenerators; customers and installers already use the distribution portal with or without registration for 100% of connection requests.
- On June 16, 2023, a cooperation agreement was signed between ČEZ Distribuce and the Secondary Industrial School, Resslova, Ústí nad Labem, aimed at interconnecting theoretical teaching with practice, to inspire students' interest in the energy sector, and to secure a young generation of future employees.
- On June 21–22, 2023, the atmospheric storms passing over the West, Center, East, and Moravia regions, accompanied by strong gusty winds and torrential rains, caused more than 250 faults on the distribution grid equipment; almost 30,000 customers were restricted; the Contact Center recorded a total of 17,500 calls and the Bezššávy portal registered almost 10,000 visits.
- At the beginning of June, a new company, Grid Design, was founded with ownership interests of ČEZ Distribuce (51%) and ENERCON Grid (49%), with a spin-off plant, Grid Plan; the companies will ensure faster preparation and higher quality of project documentation and overall improve the process of creating distribution facility construction projects.
- The Green Fleet project team participated in the 27th CIRED International Conference in Rome; the team was selected for the conference and subsequently for the discussion based on an article that described technical solutions and approaches to ensure the development, installation, and operation of nonpublic fleet charging stations for electromobility within the ongoing Green Fleet project and the European OneNet project.
- The 7th year of the Prokop Diviš Motivational Program was evaluated at individual partner schools; 1,550 students in 10 schools participated in the program and 91 of them were awarded; the aim of the program is to inspire interest and awareness of ČEZ Distribuce and to motivate students to acquire additional knowledge in the electricity sector.
- The restoration of the Podbořany transformer station was completed in the North region; the outdated 110 and 22 kV technology was upgraded, including the replacement of protection systems and the control system.

July

- On July 16–17, 2023, due to an atmospheric storm accompanied by strong winds and rain, there were 193 interruptions of electricity distribution in the Moravia region, with more than 31,000 customers restricted; most of the faults were eliminated within 24 hours of the interruption; the Contact Center recorded a total of 11,220 calls and the Bezššávy portal registered 11,000 visits.

- On July 24, 2023, due to an atmospheric storm accompanied by strong winds and rain, there was an increased number of faults on the distribution grid equipment in the Moravia region, with 163 faults registered and more than 35,000 customers restricted; the Contact Center recorded a total of 6,560 calls and the Bezššávy portal registered almost 4,000 visits.
- Comprehensive reconstruction of high-voltage lines was completed in the Moravia region; the reconstruction will increase the transformation capacity in the existing 110/22 kV Šumperk substation to connect new customers.

August

- New features were launched in the Proud mobile application: now it can verify the probability of connecting a generating facility up to 50 kW without modifying the distribution grid at the customer-specified service point and set a push notification with a warning if consumption is switched to a low tariff.
- On August 26–29, 2023, due to several passage atmospheric storms accompanied by strong winds and torrential rains, there was an increase in the fault rate of distribution grid equipment in the East and Moravia regions, with more than 40 faults recorded and more than 50,000 customers restricted; the Contact Center recorded more than 18,000 calls and the Bezššávy portal registered 16,000 visits.
- The renovation of the Litoměřice-severozápad transformer station was completed in the North region; the 22 kV substation was reconstructed, including the control system, protection system and measurement system.

September

- The reconstruction of the 110 kV Přeštice–Holýšov line with a total length of 20 km was completed in the West region; steel pole structures were repaired and insulation elements were completely replaced.
- The reconstruction of the 110 kV Ostrava–Vítkovice substation was started in the Moravia region; it will be equipped with new technology, including a protection system and a new control system.
- The comprehensive reconstruction of the Děčín Východ substation was started in the North region; it will modernize the complete 110 kV technology, renew the 22 kV technology, including a new protection system and control system, and build a new transformer stand.

October

- On October 3, 2023, in the North, Center, and East regions, there was an increased fault rate of distribution grid equipment as a result of strong winds, when more than 26,000 customers were restricted and 48 faults were recorded.
- A year after its launch, virtual assistant Ema welcomed 1,000,000 customers, handled 100,000 requests itself, processed 10,000 entered self-readings and helped handle 35,000 unsealed electricity meters.
- On October 20–21, 2023, due to strong winds, there was an increased fault rate of distribution grid equipment in the areas of Frýdek-Místek, Nový Jičín, Třinec, and Valašské Meziříčí in the Moravia region.

November

- In the Center region, the restoration of the 22 kV Uhlířské Janovice substation was completed, the building and the common areas were renovated, including the installation of a new 22 kV power switchboard, self-consumption was restored, a new protection system including an appropriate control system was restored and an asset protection system was installed.
- 140 employees took part in the 26th CIRED conference in České Budějovice, where ČEZ Distribuce had a presentation on the topic of "Impacts of New Energy".
- On November 27–29, 2023, there was an increased fault rate of distribution grid equipment due to heavy, wet snow in the West and North regions; more than 30 faults were recorded and more than 43,000 customers restricted, most of the faults were removed within 36 hours of their occurrence.
- On November 8, 2023, the twelfth series of workshops for electricity traders took place, with the meeting focusing on four topics: community energy and the upcoming electricity sharing, the process of connecting generating facilities and microgenerators, complaints and the way they are entered, and news in energy-related legislation; a total of 132 persons from 65 merchants participated.
- The comprehensive reconstruction of the 22 kV Krhanice switching station was completed in the Center region, self-consumption was restored, a new protection system including a control system, and an asset protection system was completed.
- The installation of new transformers of a higher power series was completed in the Odry transformer station in the Moravia region, allowing the connection of renewable energy sources in the given area.
- The comprehensive reconstruction of the Červený Kostelec transformer station was completed in the East region; the 110 kV technology was restored, two covered stands of power transformers were built, self-consumption, metering and a new protection system with an appropriate control system were modernized.
- The reconstruction of the dual 110 kV Neznášov – Nová Paka line was started in the East region; poles, phase conductors, anchoring and insulating elements will be replaced, including the installation of a combined ground cable for the optical infrastructure, in a total length of 30.8 km of the line.
- The reconstruction of the 110 kV line from the Ústí nad Orlicí transformer station to line V1178 was started in the East region; there will be a complete replacement of poles, phase conductors, anchoring and insulating elements, including the installation of a combined ground cable for the optical infrastructure, in a total length of 8.5 km of the line.
- The reconstruction of the 110 kV Třebovice–Hoštice line was completed in the Moravia region; the reconstruction involved a complete replacement of poles, phase conductors, anchoring and insulating elements, including the installation of a combined ground cable for the optical infrastructure, in a total length of 8 km.
- The renovation of the existing 22 kV Benešov substation was completed in the Center region, including the installation of a protection and regulation system.
- For the entire year 2023, 52,109 photovoltaic power plants with an installed capacity of 605.5 MW were connected to the ČEZ Distribution network.
- Employees of ČEZ Distribuce gave out gifts at the Jedlička Institute in Liberec for the sixteenth time.

Key Events of 2024 until the Annual Financial Report Closing Date

January

- The unification of the town of Česká Třebová started in the East region; the voltage level of the town's cable system will be increased from 6 kV to 35 kV and more than 40 substations will be modified, 16 km of medium-voltage cable lines will be replaced.
- On January 24, 2024, trees and branches fell on the power lines due to strong winds in the regions of Moravia, North, Center and West, with 22 recorded faults and over 8,000 customers restricted.
- On January 24, 2024, a fault occurred in the encapsulated switchboard in the Liberec–Doubí switching station, more than 20 customers were restricted.

February

- An employee survey that took place in the autumn of 2023 was evaluated; the employees were informed of the survey results for the first time in Hradec Králové and Skuteč on February 13, 2023, other regions are to follow.

March

- The reconstruction of the 110 kV Lískovec–Příbor overhead line was started in the Moravia region; the reconstruction of the 15.6 km section of the line with 62 poles will increase the demand for consumption and the reliability of electricity supply in the industrial zone of Mošnov and Kopřivnice.
- Electronic signature was deployed, accelerating and simplifying the entire connection contract process.

December

- On December 5, 2023, a Memorandum of Cooperation was signed between ČEZ Distribuce and the state enterprise Vojenské lesy a statky ČR (Military Forests and Estates of the Czech Republic); the goal is to prevent power outages due to trees falling on power lines during strong winds, but also to carry out operational monitoring associated with corrective measures in order to eliminate damage caused by falling trees growing outside the protection zones of the power lines.
- On December 21–25, 2023, there was a distribution grid emergency caused by storm Pia; the faults were primarily caused by trees and branches falling on the power lines due to strong gusts of wind; heavy snowfall with gradual thawing was the cause of the rise in river levels and the shutdown of some parts of the distribution grid equipment; over 200,000 customers were restricted – the Contact Center recorded a total of over 11,000 calls.

actively

Ema is our virtual assistant who helps **actively** serve customers in the Contact Center. It can serve up to 100 customers at a time. Customers use it most often for reporting unsealing, insulating wires, solving business requirements, and reporting self-readings. Since its launch, it has already served more than a hundred thousand customers.

Governance Bodies

In accordance with applicable legislation and the bylaws of ČEZ Distribuce, a. s., the shareholders' meeting elects and removes members of the Board of Directors, two-thirds of Supervisory Board members, and members of the Personnel Committee. Employees elect one-third of Supervisory Board members from among Company employees.

Supervisory Board

The Supervisory Board is the Company's supervisory body; it supervises the exercise of the Board of Directors' powers and the conduct of the Company's business activities. Details of the Supervisory Board's sessions, approval procedure, meetings, and decision making are specified by the Rules of Procedure in accordance with the bylaws.

Supervisory Board Members as at the Annual Report Publication Date

Daniel Beneš (born 1970)

Chairman of the Supervisory Board since July 1, 2021

Member of the Supervisory Board since July 1, 2021

A graduate of the Technical University of Ostrava, Faculty of Mechanical Engineering, Brno International Business School, Nottingham Trent University (MBA).

He currently holds the position of Chief Executive Officer and Chairman of the Board of Directors of ČEZ, a. s.

Pavel Cyrani (born 1976)

Vice-Chairman of the Supervisory Board since July 1, 2021

Member of the Supervisory Board since July 1, 2021

A graduate of the University of Economics, Prague, majoring in international trade, and the Kellogg School of Management in Evanston, Illinois (USA), where he was awarded an MBA in Finance.

He currently holds the position of Director of the Sales and Strategy Division and Vice-Chairman of the Board of Directors of ČEZ, a. s.

Jan Brožík (born 1972)

Member of the Supervisory Board since December 1, 2018

A graduate of the Faculty of Finance and Accounting, University of Economics, Prague; MBA from the University of Pittsburgh.

He currently holds the position of Director of Financing at ČEZ, a. s.

Marek Šlégl (born 1977)

Member of the Supervisory Board since April 1, 2020

A graduate of the Faculty of Law, University of West Bohemia, Plzeň.

He currently holds the position of Director of Ownership Interest Administration at ČEZ, a. s.

Monika Gibfriedová (born 1970)

Member of the Supervisory Board elected from candidates elected by the employees since September 1, 2023

A graduate of an industrial school of electrical engineering. She works in the Distribution System Operation Section, ČEZ Distribuce, a. s., as an operations technician at West Grids.

Jaroslav Říčař (born 1979)

Member of the Supervisory Board elected from candidates elected by the employees since September 1, 2023

A graduate of an industrial school of electrical engineering. He works in the Energy Asset Management Section, ČEZ Distribuce, a. s., as a high-voltage assets development specialist.

List of Supervisory Board Members Whose Membership Terminated in 2023 or by the Annual Report Closing Date

Karel Čech (born 1958)

Member of the Supervisory Board elected from candidates elected by employees from September 1, 2018 to September 1, 2023

Václav Rašner (born 1966)

Member of the Supervisory Board elected from candidates elected by employees from September 1, 2018 to September 1, 2023

Board of Directors

The Board of Directors is the Company's statutory governing body, which manages its activities and acts on its behalf. Board of Directors members are elected and removed by the shareholders' meeting. The powers of the Board of Directors are defined by the Company's bylaws approved by the shareholders' meeting. The Board of Directors makes decisions on all Company matters unless they are reserved for another company body by law or the Company's bylaws. Details of the Board of Directors' sessions, approval procedure, meetings and decision making are specified by the Rules of Procedure of the Board of Directors of ČEZ Distribuce, a. s. The Board of Directors has five members; Board of Directors members elect and remove their chairperson and vice-chairperson. Pursuant to law and the Company's bylaws, the Supervisory Board is notified of selected matters or asked for an opinion or prior authorization of the Board of Directors' decision.

Board of Directors Members as at the Annual Report Publication Date

Martin Zmelík (born 1975)

Chairman of the Board of Directors since August 1, 2018
A graduate of the Faculty of Business Administration, University of Economics, Prague; MBA from U.S. Business School Prague (Rochester Institute of Technology).

Radim Černý (born 1974)

Vice-Chairman of the Board of Directors since February 8, 2019
A graduate of the Faculty of Electrical Engineering, University of West Bohemia, Plzeň.
He is a member of the Board of Trustees of the Czech Association of Regulated Power Supply Companies (CARPSC).

Martin Molinger (born 1985)

Member of the Board of Directors since January 1, 2020
A graduate of the Faculty of Informatics and Management, University of Hradec Králové.

Lucie Masopustová (born 1973)

Member of the Board of Directors since October 1, 2021
She holds an MBA degree from Nottingham Trent University in Prague.

Jakub Hlavica (born 1976)

Member of the Board of Directors since April 1, 2023
A graduate of the Brno University of Technology, Faculty of Business and Management, MBA from Wirtschaftsuniversität Wien.

Principles of Remuneration of Members of the Board of Directors and Supervisory Board

The principles of remuneration of members of the Board of Directors and the Supervisory Board are governed by rules approved by the Company's shareholders' meeting and incorporated in service contracts with members of the Board of Directors and the Supervisory Board, as approved by a decision of the sole shareholder exercising the powers of the shareholders' meeting.

Specific tasks for individual Board of Directors members are also approved by a decision of the sole shareholder exercising the powers of the shareholders' meeting, as is the assessment of their fulfillment, which, in accordance with the rules of unbundling, is solely dependent on the Company's performance. Such specific tasks are evaluated annually. ČEZ Distribuce, a. s. did not grant any credit or loans to members of the Board of Directors or the Supervisory Board and did not assume any liability or guaranty or performance on their behalf in 2023.

with ambition

Ema is our virtual assistant who helps serve customers in the Contact Center. It can serve up to 100 customers at a time. Customers use it most often for reporting unsealing, insulating wires, solving business requirements, and reporting self-readings. Since its launch, it has already served more than a hundred thousand customers. Digitization is today's trend. It allows customers to submit applications and requests online from the comfort of their homes and monitor the progress of processing the submitted requests. We are also moving with the times and offer customers to submit requests digitally. Last year, this option was used in more than 60% of submissions. **With ambition** we aim to receive up to 80% of all requests online by the end of 2025. We handle around 3 million requests from our customers and partners annually.

Financial Performance

The joint-stock company ČEZ Distribuce was formed under the Draft Terms of Domestic Merger by the Formation of a New Company with the merger record date of January 1, 2010, and came into existence by registration in the Commercial Register kept by the Regional Court in Ústí nad Labem, Section B, File 2145, on October 1, 2010. Its core business is providing electricity distribution system services to individuals and legal entities.

Revenues, Expenses, and Income

Income Structure (CZK Millions)

The Company's 2023 income before taxes was CZK 6,238 million. Its net income of CZK 3,726 million constitutes a decrease of CZK 2,618 million as compared to 2022.

Operating income was CZK 6,655 million, which is CZK 1,571 million less than in 2022, primarily due to decreased operating revenues. Financing activities generated a loss of CZK 417 million due to interest on borrowings; the loss increased by CZK 52 million as compared to 2022.

Total expenses without income tax were CZK 33,946 million in 2023. The highest amounts were expended on covering costs associated with the purchase of system, transmission, and distribution services and with the purchase of electric power to cover losses, totaling CZK 13,199 million, followed by depreciation and amortization of noncurrent assets of CZK 9,293 million, salaries and wages of CZK 5,402 million, other expenses on production-related consumption of CZK 5,004 million, financial expenses of CZK 1,375 million, and other expenses arising from operating activities of CZK -327 million.

Total 2023 revenues amounted to CZK 40,184 million and consisted of revenue from distribution system services amounting to CZK 37,495 million, other revenues of an operating nature amounting to CZK 1,731 million, and financial revenue amounting to CZK 958 million.

Asset and Capital Structure

Total Assets

Total assets amounted to CZK 170,904 million, increasing by CZK 4,459 million against 2022.

Fixed assets amounted to CZK 152,623 million, increasing by CZK 7,728 million as compared to 2022. The most significant item was structures amounting to CZK 115,847 million, followed by tangible movable assets and sets thereof amounting to CZK 31,208 million, net plant in service amounting to CZK 3,507 million, land amounting to CZK 1,082 million, and intangible fixed assets amounting to CZK 747 million.

Current assets in 2023 decreased by CZK 3,252 million against the year before, amounting to CZK 18,212 million. The highest amounts were gain contingencies amounting to CZK 9,392 million, which represent mostly unbilled deliveries of services relating to electricity distribution, short-term receivables from Group companies within Group cash pooling amounting to CZK 6,239 million, materials amounting to CZK 1,477 million, short-term trade receivables amounting to CZK 647 million, and short-term advances paid amounting to CZK 305 million.

Accruals amounted to CZK 69 million and decreased by CZK 17 million against 2022.

Structure of Assets (CZK Millions)

Equity and Liabilities

Equity amounted to CZK 94,713 million, decreasing by CZK 80 million compared to 2022. The biggest items of equity were the stated capital registered in the Commercial Register, amounting to CZK 60,000 million, the profit of previous years in the amount of CZK 18,693 million, the reserve fund of CZK 12,000 million, and the current period's profit of CZK 3,726 million.

Provisions and liabilities amounted to 64,017 million and increased by CZK 3,098 million year over year. The highest amounts were noncurrent liabilities – controlled or controlling entity in the amount of CZK 29,807 million, deferred tax liabilities of CZK 13,612 million, short-term received advances of CZK 10,199 million, short-term trade payables of CZK 3,944 million, short-term liabilities – controlled or controlling person of CZK 2,443 million, other provisions of CZK 2,229 million, and short-term contingent liabilities in the amount of CZK 1,162 million.

Other liabilities, consisting primarily of deferred revenue from connection applicants' contributions, amounted to CZK 12,174 million, increasing by CZK 1,441 million against the previous period.

Structure of Equity and Liabilities (CZK Millions)

Company Financing

Cash Flows

Cash Flow Summary (CZK Millions)

Cash from operating activities, amounting to CZK 16,104 million, was generated by the following:

Profit on ordinary activities before taxes	6,238
Corporate income tax paid	(899)
Depreciation and amortization of noncurrent assets, write-offs	9,325
Changes in working capital	(601)
Other operating activities	2,041

Cash used in investing activities totaled CZK 16,486 million, with expenditures on purchases of noncurrent assets of CZK 16,596 million accounting for the greatest part thereof.

Cash used in financing activities totaled CZK -382 million; the amount included the payment of dividends amounting to CZK 3,806 million, change in cash under Group cash pooling of CZK -1,475 million, and change in the balance of loans of CZK -2,713 million.

Borrowings and Their Maturity

As at December 31, 2023, the Company had loans amounting to CZK 32,250 million (maturing at August 21, 2025, September 25, 2028, May 31, 2030, and May 31, 2032). Of that amount, the long-term portion of loans amounted to CZK 29,807 million and the current portion amounted to CZK 2,443 million.

Key Financial Indicators

	Unit	2022	2023
Return on equity, net (ROE Net)	%	6.78	3.93
Return on assets, net (ROA Net)	%	3.90	2.21
EBIT margin	%	17.31	16.97
Financial debt to equity	%	31.57	34.04
Net debt to EBITDA	%	199.81	249.24
Current ratio	%	70.54	59.87
Operating cash flow to debt	%	41.39	36.33
Asset turnover	1	0.29	0.23
Noncurrent Asset Coverage	%	92.43	90.51
Depreciation-to-net plant in service ratio	%	55.25	54.60

Economic and Financial Outlook for 2024

The year 2024 is the fourth year of the fifth regulatory period, in which the rules of regulation based on the Price Regulation Principles for the regulatory period of 2021–2025 apply. These rules should ensure coverage of a distribution company's legitimate costs, including the generation of resources for distribution system renovation and development and revenue for shareholders. The volume of purchases and sales of electricity distribution services is based on the expected development of electricity consumption, taking into account the impact of the energy crisis.

The Company's plan for 2024 anticipates revenues from sales of own products and services amounting to CZK 66,707 million, income before taxes of CZK 7,184 million, and capital expenditure of CZK 18,254 million.

Capital Expenditure

Principal Goals of Capital Construction

The Company expended CZK 17,086 million on distribution system renovation and development in 2023. The principal objective of capital expenditures is improving the quality, reliability, and safety of electricity supplies.

Capital expenditure was directed into the grids at all voltage levels and was implemented across all asset groups, including distribution grid development and coverage of customer requirements for connection to the distribution grid. In the field of new technologies, capital expenditures were primarily made on projects in digitization, installation of remotely controlled elements in medium-voltage grids, followed by projects for the installation and addition of metering equipment at distribution substations. Our optical infrastructure development project entered its next stage.

Capital Expenditures in 2022 and 2023, Plan for 2024

Capital Expenditure (CZK Millions)

	2022	2023	2024
HV structures	958	1,034	1,570
MV structures	4,603	4,868	4,229
LV structures	7,832	8,901	8,455
Electricity meters	721	995	1,575
Ancillary expenditure	919	1,288	2,425
Total	15,033	17,086	18,254

Capital Expenditures in 2023

	%
● HV structures	6
● MV structures	28
● LV structures	52
● Electricity meters	6
● Ancillary expenditure	8
Total	100

Capital Expenditures on the Distribution System

Capital expenditures in 2023 were principally focused on MV and LV structures. CZK 13,769 million was expended on such assets in 2023. Most of the projects involved the construction of new and the renovation of existing underground and overhead lines. Capital expenditures on HV structures amounted to CZK 1,034 million. Most of the projects concerned reconstructing and constructing new HV/MV transformer substations and HV overhead lines.

CZK 1,288 million was expended on activities supporting main distribution processes, in particular the enhancement of operating and control systems. Investments of CZK 995 million were expended on the purchase of electricity meters.

Capital expenditures on projects initiated at customers' requests totaled CZK 7,418 million.

Major Projects

- Polička–Svitavy, new 110 kV line
- Třebovice–Hoštice, Martinov branching, reconstruction of the HV line
- Červený Kostelec, renovation of a 110/35 kV transformer station
- Šumperk–Ráječek, reconstruction of the HV line
- Hranice, reconstruction of a 110 kV substation
- Lískovec, reconstruction of a 110 kV substation
- Benešov, renovation of a 22 kV substation
- Litvínov, reconstruction of a 110 kV substation.

Information on the Company's Core Business

The Company's core business is providing electricity distribution services to individuals and legal entities. The Company manages distribution system assets and controls the operation of the distribution system from its control center.

In 2023, the distribution system was operated and maintained in line with quality standards and requirements defined in the Preventive Maintenance Regulations to the maximum extent possible. Continuous operation of the distribution system during the year was negatively affected by ten emergency conditions of increased failure rates caused by severe weather, during which there were 4,783 emergency interruptions of electricity distribution with impacts on customers that lasted more than three minutes. Besides those extraordinary interruptions, there were other unplanned interruptions that lasted more than three minutes and affected at least one customer: 46 interruptions at the HV level, 6,497 interruptions at the MV level, and 20,973 interruptions at the LV level. In addition, 6,845 damaged fuses were replaced in customers' main fuse boxes or feeder boxes.

The Company monitors and evaluates indicators concerning the quality and reliability of electricity supply and distribution and the quality of provided services. One of the indicators is the System Average Interruption Duration Index (SAIDI), which represents the total average outage duration per customer during a whole year. An equally important indicator is SAIFI, the average number of electricity distribution interruptions, which reflects the average number of electricity supply interruptions per customer throughout the year. The efficiency of the measures aimed at increasing the continuity of electricity distribution is demonstrated by achieving the bonus resulting from the incentive regulation introduced by the Energy Regulatory Office for the SAIFI indicator.

System Average Interruption Duration Index (Minutes)

ČEZ Distribuce, a. s. owns and operates the following distribution system assets:

Distribution System Infrastructure

	Unit	2022	2023
Installed line length	km	168,533	169,665
Of which: HV	km	9,998	10,020
MV	km	51,462	51,590
LV	km	107,073	108,055
MV/LV transformer substations	Number	60,527	60,953
Of which: Owned by the Company	Number	47,524	47,902
Owned by a third party	Number	13,003	13,051
HV/HV, HV/MV, MV/MV transformer substations	Number	285	285

The Company's distribution system distributed 40,644 GWh of electricity in 2023.

Annual Figures on Electricity Distribution (GWh)

	2022	2023
System inflow		
Supplied from transmission service provider's grid	25,298	26,371
Supplied from facilities owned by ČEZ, a. s.	1,608	2,347
Supplied from neighboring distribution service providers	1,175	950
Supplied from facilities owned by other producers, including autoproducers	11,791	8,757
Supplied from other facilities	53	22
Imports (from abroad) at distribution service level	543	107
Distribution license holders (local distribution system)	2,222	2,090
Total system inflow	42,690	40,644
System outflow		
HV/MV customers	12,494	11,711
LV customers	14,791	14,162
Consumed by producers in distribution service provider's grid	1,968	2,140
Consumed by other facilities	53	22
Supplied to neighboring distribution service providers	5,615	5,081
Supplied to transmission service provider's grid	586	270
Exports (abroad) at distribution service level	2	144
Distribution license holders (local distribution system)	5,537	5,549
Other consumption by distribution service provider	51	46
Losses	1,593	1,519
Total system outflow	42,690	40,644

Electricity inflow into the Company's distribution system was 40,644 GWh in 2023. This was a decrease of 4.79%, or 2,046 GWh, as compared to 2022. The greatest percentage, 64.88%, was electricity inflow from the transmission service provider's grid, which was 26,371 GWh. This was a decrease of 1,073 GWh compared to 2022. The amount of electricity procured directly from the facilities of ČEZ, a. s. was 2,347 GWh, which was 739 GWh more than in 2022. Supplies from neighboring distribution service providers decreased by 225 GWh year over year; supplies from facilities owned by other producers, including autoproducers, decreased by 3,034 GWh. The amount of electricity from other facilities decreased by 31 GWh. Imports from abroad decreased by 436 GWh year over year; supplies from local distribution systems decreased by 132 GWh.

The amount of electricity distributed to HV and MV customers decreased by 783 GWh year over year; electricity distributed to customers at those voltage levels accounted for 28.81% of total supplies. The amount of electricity distributed at LV level decreased by 629 GWh and accounted for 34.84% of total supplies. Producers' consumption increased by 172 GWh as compared to 2022; other facilities' consumption decreased by 31 GWh. Supplies to neighboring distribution service providers decreased by 534 GWh year over year; their share in the total amount of electricity distributed was 12.50%. The amount supplied back to the transmission service provider's grid decreased by 316 GWh. Exports abroad increased by 142 GWh year over year. Supplies to local distribution systems increased by 12 GWh in a year-over-year comparison. Other consumption decreased by 5 GWh; losses decreased by 74 GWh.

The highest hourly peak was 5,763 MW, achieved on February 7, 2023, at 9 a.m.

Weekly Peaks (MW)

ČEZ Distribuce, a. s. sells its electricity distribution services to customers through electricity traders or by direct sales.

ČEZ Distribuce, a. s. had framework contracts with 138 active traders in 2023.

Number of Service Points

	Unit	2022	2023
HV, MV – large end-use customers	Number	14,683	14,836
LV – commercial retail	Number	442,841	444,266
LV – residential retail	Number	3,314,808	3,331,672
Total		3,772,332	3,790,774

More than 18,000 new service points were connected in 2023. Additionally, 52,164 new generating facilities with a total installed capacity of 641 MW were connected in 2023. CZK 1,827 million were collected from customers in contributions towards connection and capacity increases pursuant to Decree No. 16/2016 Coll., on conditions for connection to the electricity system, and CZK 6,536 million were expended on fulfilling their requests in 2023.

New Connections, Increased Capacity

Voltage level	Expenditure on the distribution system (CZK millions)	Selected shares (CZK millions)	Connected or increased (MW)
HV	88	582	2,542
MV	704	557	795
LV	5,744	688	761
Total	6,536	1,827	4,098

Connecting generating facilities

In 2023, 63,069 received requests were registered, of which 65% concerned microgenerators. 52,164 generating facilities with an installed capacity of 641 MW were connected. In the entire distribution area of ČEZ Distribuce, a. s., 106,862 generating facilities with an installed capacity of 7.4 GW are currently connected (PVPPs 1.9 GW, WPPs 0.3 GW, other RES 2.5 GW, and other generating facilities 2.7 GW).

safely

We invest **safely**, in 2023 we invested CZK 17 billion.

This is historically a record-high amount achieved in one year. The reason was an increased amount of customer requests for connecting renewable energy sources and heat pumps, the effects of inflation associated with the increase in material prices, and the strengthening of investments in the field of information and cybersecurity.

Safety and Quality Management, Environmental Protection

Occupational Safety and Health

At ČEZ Distribuce, a. s., an internal audit of the OSH management system was conducted in accordance with the Safe Enterprise program, confirming the functionality of the established system and compliance with applicable legal regulations.

In 2023, there were 22 work-related accidents with an absence of more than three calendar days at ČEZ Distribuce, a. s., with a total of 1,371 days off work.

Despite the reduction in the number of work-related accidents with an absence of more than three calendar days, there was an increase in the number of serious work-related accidents (with hospitalization for more than 5 days) compared to 2022. In the case of these accidents, failure to comply with the provisions of the management documentation was determined to be the main cause. Slipping, tripping, and bad footing while walking were found to be the most common causes of absenteeism at work.

The Company met the objectives in the field of OSH set for the year 2023.

Fire Prevention

Fire protection focused on prevention, protecting employees and property from fire, and creating conditions for safe operation of the distribution grid. The Company has set up a functional management system in the area of fire protection. The fulfillment of statutory obligations is ensured by professionally competent persons. Prevention is fulfilled, among other things, by continuous updates of fire protection documentation, training and professional preparation of employees, as well as control and audit activities of professionally qualified persons and managers of all management levels according to approved annual plans. The Company met the fire protection targets set for 2023.

Within the framework of state fire supervision, no serious deficiencies were detected by the state administration authorities. No extraordinary event occurred at the Company during the period – fire with damage exceeding CZK 1 million.

OSH Coordination on Construction Sites

OSH coordination on construction sites is an integral part of the Company's OSH care. In ongoing construction and renovation projects at MV and HV voltage levels, the requirements established by the relevant legislation (Act No. 309/2006 Coll., Government Regulation No. 591/2006 Coll.) are ensured by internal specialists – OSH coordinators. At LV voltage levels, the services of a contractual partner are used, as tendered in a public contract. Employees of the OSH Coordination on Construction Sites Department are responsible to the maximum extent for the operational adoption of safety measures on construction sites. Despite daily inspections by OSH coordinators on construction sites and a series of training sessions for contractors, there were serious emergencies and several situations that required the subsequent hospitalization of a contractor's employee due to violations of OSH rules by the contractor. Following the adoption of new legislation (Building Act No. 283/2021 Coll., amendments to Act No. 309/2006 Coll.) from January 1, 2024, processes were adjusted to prepare the Company for the legislation. In 2023, no administrative proceedings were conducted and no sanctions were imposed by regulatory authorities in connection with the activity of OSH coordination on construction sites.

Quality Assurance

The Company applies quality standards within all processes. Key process indicators and required process outputs are reviewed by internal audits, checks, and other feedback tools. The achievement of quality indicators and targets is included in the evaluation of business units and employees. Quality management is based on a uniform technical policy, standardization, and metrology. The compliance of management systems, certified to ČSN EN ISO 14001, ČSN EN ISO 50001, and the "Safe Enterprise" program, and also to ČSN EN ISO 9001 for certain processes, is regularly audited by a certification company and the regional occupational safety inspectorate. As part of the physical protection of property, the parameters of its provision are continuously updated, security measures are proposed and implemented to achieve an acceptable level of security.

Environmental Protection

The joint-stock company ČEZ Distribuce pays attention to the creation of conditions for environmental protection in accordance with applicable legal regulations. The Company's dedicated employees are actively involved in environmental care in all its components, in particular protection of nature and landscape, waste, packaging and water management, management of chemicals and mixtures, accident prevention, remediation of old environmental burdens, and climate protection.

Protection of Nature and Landscape

The Company deals with the protection of birds against electric shock on the lines of distribution grids in the long term by installing support points with a safe design or equipped with additional protection of insulators. Thanks to the design or by adding plastic insulator covers, 71% of these support points are now safe. Approximately 3,700 safe support points with protection were added in 2023. In particular, priority sites for bird protection are continuously addressed in cooperation with the Agency for Nature Conservation and Landscape Protection (ANCLP). ČEZ Distribuce actively participates in the working group meetings of the Ministry of the Environment, the Ministry of Industry and Trade, the Agency for Nature Conservation and Landscape Protection, the Czech Ornithological Society, and distribution and transmission system operators. This resulted in methodical guidelines for bird protection. It also cooperates in the long term with the ANCLP on the development of safe structures and solutions to protect birds from electric shock.

The Company also handles suggestions from citizens, authorities, and environmental organizations related to the protection of birds on distribution grid installations. These are dozens of cases annually. The most frequent cases concerned stork nests on the support points of low-voltage lines, which are solved by relocating the nest on the basis of an exemption granted by the nature protection authority or by insulating bare wires in the vicinity of the nest. In addition, the condition of stork nests located on the distribution grid equipment is actively monitored by ČEZ Distribuce. Another long-term activity is the protection of the critically endangered little owl against death after flying into the cavities of concrete columns by installing covers on these support points in selected areas of Czechia. To support biodiversity, for example, the following projects were implemented:

- Relocation of a stork nest outside the distribution system in the town of Dešenice, where a new pole and a pad for the stork nest were installed with the financial support of the ČEZ Foundation.
- On the "East Bohemian Sahara" site near Lázně Bohdaneč, the mulch was cleared after the maintenance of the power line protective zone in cooperation with the regional office in order to protect gerbil communities.
- Installation of a bird's box for little owls on an electric pole in the town of Drahovice and a bird's box for kestrels at the DTS near the Řešánov-Boudy settlement (Tachov district).
- Near the town of Rybníště in the Šluknovský Výběžek region, an existing nest occupied by the endangered osprey was adjusted on a high-voltage power line pole, together with ornithologists from the Bohemian Switzerland National Park. This is the only nest of this bird species in Czechia.

Waste Management

In the framework of waste management, ČEZ Distribuce, a. s. cooperates with sheltered workshops TRIANON, MARKETA – REMONE and Charita Opava, which employ disabled people. The Company supplies them with selected types of waste, especially discarded electrical equipment, for further processing and evaluation.

All discarded measuring instruments are handed over to EKO Logistics for recycling. ČEZ Distribuce is involved in the system of free takeback of discarded electrical products operated by REMA Systém and ECOBAT. An important activity in the field of waste recycling is the cooperation with K M K GRANIT, which is handed over waste ceramic insulators for their further use as input raw materials instead of landfilling them.

Water Management and Water Protection

As regards water protection, the Company focuses on preventing the leakage of harmful substances (oils) from operating equipment, especially transformers and chokes. The power transformer and choke stations are secured by catch pits opening into a nondraining emergency pit. In new and reconstructed transformer stations, covered stands for transformers and chokes are implemented, which eliminate the risk of oily water. As part of capital construction and repairs, water management structures and electrical station equipment used for wastewater treatment and water protection in case of leakage of harmful substances are renovated.

Old Environmental Burdens

A total of 78 locations with old ecological burdens were identified in the territory served by ČEZ Distribuce. Some environmental burdens were already removed in previous years. By the end of 2023, environmental burdens in 61 locations were handled. In the remaining 17 locations, either monitoring, additional research, update of burden documentation, remediation of old ecological burdens, or removal of monitoring or reclamation wells are under way.

Air and Climate Protection

The Company contributes to air protection through regular fleet renewal, including the introduction of electric vehicles. The Company provides for the operation, maintenance and tightness checks of equipment containing fluorinated greenhouse gases, such as air conditioning units and distribution system equipment containing SF₆ (sulfur hexafluoride) gas in electrical substations. In order to prevent SF₆ leaks into the air, electrical switchgear is equipped with a leak detection system.

An investment of CZK 16.2 million was made in environmental protection in 2023. In October, an external EMS and EnMS audit was successfully conducted, confirming the compliance of the environmental management system with the requirements of ČSN EN ISO 14001 and the compliance of the energy management system for the operation of technical and nontechnical distribution system equipment with the requirements of ČSN EN ISO 50001.

Shares and Shareholders

The total amount of the stated capital of ČEZ Distribuce, a. s. was CZK 60,000 million as at December 31, 2023. The sole shareholder of ČEZ Distribuce, a. s. is ČEZ, a. s., with its registered office at Duhová 2/1444, 140 53 Prague 4, Company Registration Number 45274649.

Classes and Volumes of Issued Stock

The stated capital is divided into 600 registered shares of stock with a nominal value of CZK 100 million. The Company's shares are issued as materialized shares. The shares have been replaced with a Stock Certificate with a total nominal value of CZK 60,000 million, issued to ČEZ, a. s., with its registered office at Duhová 2/1444, 140 53 Prague 4, Company Registration Number 45274649. ČEZ Distribuce, a. s. did not acquire any treasury shares in 2023.

Human Resources

Employment Changes

In the field of labor relations and welfare policy, ČEZ Distribuce, a. s. supported the maintenance of social peace, respecting the Labor Code and related legislation as well as the applicable collective agreement of the Company.

New Hires and Exits in 2023

	Number of employees
New hires	300
Exits	265

The workforce headcount as at December 31, 2023, was 4,607 employees.

Education

In 2023, in line with previous years, ČEZ Distribuce, a. s. focused on developing and maintaining its employees' core competencies, i.e., both professional and interpersonal skills. The Company places great emphasis on employee education and development. This effort is the basis for maintaining a qualified workforce and for continuous improvement and maintenance of expertise in the field of energy. Employees have the opportunity to participate in internal and external courses that cover various areas: from technical skills and work safety, seminars, internal mentoring and communication skills courses to thematic conferences and meetings that are important to maintain good knowledge and contacts in the energy market. Education was provided on the basis of the needs and interests of the employees and the Company, either online or face-to-face. In the area of managerial development and development of key employees, emphasis was placed on the support and further development of their potential. The Company focused more on managing generational change, change management, knowledge and skills sharing, training employees in the deployment of new systems, taking on new activities, and the support for the development of employees' digital skills.

Programs aimed at adapting new employees, supporting managers in working with new employees, and collaboration among departments continued in 2023. These include an adaptation program for new employees, as well as a program for employees who are new to a management role. The role of in-house trainers, employees who use their know-how in internal training on specialist topics, was also supported. Another follow-up year of the 50 Hz Talent Program was prepared. The program is designed to support the development of key employees and their managerial, communication, and psychosocial skills. It focuses on the current topic of transformation, involving the frequently mentioned digitization, as well as issues of generational change, succession, and corporate culture. These topics are reflected in the Talent Program in the initiatives that the program participants develop into specific projects. It is a comprehensive, continuous training program. ČEZ Distribuce, a. s. cooperates with educational institutions, organizes lectures and workshops, participates in fairs, and offers dual education for selected students. Dual education is an innovative system that combines theoretical education in schools with practical training directly in the Company. ČEZ Distribuce is part of the educational process and guarantees that students will acquire the practical skills needed for their future employment. This model combines theoretical learning with practice and prepares young people for future employment in the energy sector. In 2023, ČEZ Distribuce, a. s. spent a total of CZK 24 million on the development and education of its employees.

Welfare Policy

ČEZ Distribuce, a. s. provides its employees with monetary and nonmonetary benefits. In the area of nonmonetary benefits, employees mainly enjoy leaves of absence beyond the scope of the Labor Code, shortened weekly working hours, and the opportunity to engage in various nonwork activities. For selected occupations, specified in the collective agreement, the Company paid for tick-borne encephalitis vaccinations. Employees had the opportunity to benefit from flu vaccination at the Company's expense.

The Company expended CZK 303 million on monetary benefits in 2023. Key items that the Company made contributions to in the past year included, most importantly, personal accounts for leisure activities and health of employees, contributions to retirement plans and life insurance, meal plans, and retirement severance pay.

Relations with Labor Unions

There were a total of 32 local labor unions operating at ČEZ Distribuce, a. s. in 2023. Almost 2,200 employees were local union members. Collective bargaining on amendments to the effective collective agreement took place in 2023, mainly concerning wages and salaries, and the welfare area. The collective bargaining culminated in the signing of Amendments No. 21 and 22 to the collective agreement. There were a total of 19 regular meetings held between the employer and labor union representatives in 2023, at which information was presented to the labor organizations and topics set down by the Labor Code and the collective agreement were discussed.

Research and Development

In 2023, activities were started on sub-projects as part of the newly established National Energy Center II. Specifically, they concerned the processing of data from communication devices in the energy industry for optimization and analytics, management, protection and optimization of energy facilities, increasing the reliability of medium-voltage networks, analyzing the possibilities of black start after a blackout, developing new components of distribution networks or verifying a new method of detecting faults on 22 kV outdoor lines, which will help increase the flow of electricity supplies to customers.

ČEZ Distribuce also participates in the performance of projects supported under the THETA program of TA CZ. At the end of the year, the project of a smart energy management system for power networks was completed, resulting in tools for managing reactive power flows and optimizing losses on medium-voltage lines. The other two ongoing projects focus on load management in a distributed energy environment (DeCoDis) and on the development of a predictive system for the diagnosis of power station equipment.

A separate project verified the potential of deploying drones to identify the necessary removal of vegetation on selected sections of lines and the subsequent checks of the work carried out.

Donations and Sponsorship Program

Donations

ČEZ Distribuce, a. s. contributed a total of CZK 200 million to projects undertaken by the ČEZ Foundation (www.nadacecez.cz) in 2023. The ČEZ Foundation's support went into developing leisure-time activities for children and youth, improving the quality of life for disadvantaged people, and improving the civic amenities of municipalities in regions where ČEZ Distribuce, a. s. operates.

Financial donations made directly by ČEZ Distribuce, a. s. totaled CZK 3.225 million in 2023. This amount was distributed among 16 selected entities that supported education, culture, public space cultivation, youth leisure activities, and environmental protection.

The Company contributed CZK 4.919 million to the CEZ GROUP SENIORS Endowment Fund in 2023.

Developments in the Legislative Framework for the Energy Sector

The basis of the legislative framework for electricity distribution consists of the following regulations, as amended, more information can be found at <http://www.cezdistribuce.cz/cs/energeticka-legislativa>:

- Act No. 458/2000 Coll., on the conditions for doing business and exercising state administration in energy industries and on amendments to some acts (Energy Act)
- Act No. 165/2012 Coll., on supported energy sources and on amendments to some acts (Supported Sources Act)
- Act No. 406/2000 Coll., on energy management
- Act No. 183/2006 Coll., on land use planning and the building code (Building Act)
- Decree No. 408/2015 Coll., on Electricity Market Rules
- Act No. 194/2015 Coll., on measures to reduce the cost of deploying high-speed electronic communications networks and on amendment to certain related acts
- Decree No. 540/2005 Coll., on the quality of electricity supplies and related services in the electricity sector
- Decree No. 207/2021 Coll., on the billing of supplies and related services in the energy sectors
- Decree No. 8/2016 Coll., on the details of licensing for doing business in the energy sectors
- Decree No. 16/2016 Coll., on conditions for connection to the electricity system
- Decree No. 359/2020 Coll., on electricity metering
- Decree No. 194/2023 Coll., on dispatch control of the electricity system and on the transmission of data for dispatch control
- Decree No. 193/2023 Coll., on the state of emergency in the electricity sector and on the contents of the emergency plan.

In 2023, the following important legislation was amended from the perspective of electricity distribution:

Act No. 458/2000 Coll., on the conditions for doing business and exercising state administration in energy industries and on amendments to some acts (Energy Act), was amended by a total of four amendments in 2023:

- On January 23, 2023, Act No. 19/2023 Coll., amending Act No. 458/2000 Coll., on the conditions for doing business and exercising state administration in energy industries and on amendments to some acts (Energy Act), as amended, and other related acts, was published in the Collection of Laws, with effect from January 24, 2023

- On December 29, 2023, Act No. 427/2023 Coll., amending Act No. 269/1994 Coll., on the Criminal Register, as amended, and some other acts, was published in the Collection of Laws, with effect from January 1, 2025
- On December 29, 2023, Act No. 465/2023 Coll., amending Act No. 416/2009 Coll., on accelerated construction of transport, water, energy, and electronic communications infrastructures (Line Act), as amended, and other related acts, was published in the Collection of Laws, with effect from January 1, 2024
- On December 31, 2023, Act No. 469/2023 Coll., amending Act No. 458/2000 Coll., on the conditions for doing business and exercising state administration in energy industries and on amendments to some acts (Energy Act), as amended, and other related acts, was published in the Collection of Laws, with effect from January 1, 2024 ("LEX RES II").

Act No. 165/2012 Coll., on supported energy sources and on amendments to some acts, was amended by a total of three amendments in 2023:

- On January 23, 2023, Act No. 19/2023 Coll., amending Act No. 458/2000 Coll., on the conditions for doing business and exercising state administration in energy industries and on amendments to some acts (Energy Act), as amended, and other related acts, was published in the Collection of Laws, with effect from January 24, 2023
- On December 12, 2023, Act No. 349/2023 Coll., amending certain acts in connection with the consolidation of public budgets, was published in the Collection of Laws, with effect from January 1, 2024
- On December 31, 2023, Act No. 469/2023 Coll., amending Act No. 458/2000 Coll., on the conditions for doing business and exercising state administration in energy industries and on amendments to some acts (Energy Act), as amended, and other related acts, was published in the Collection of Laws, with effect from January 1, 2024

On December 16, 2022, Decree No. 404/2022 Coll., amending Decree No. 408/2015 Coll., on Electricity Market Rules, as amended, was published in the Collection of Laws, with effect from January 1, 2023. It deals with compliance with the European Directive 2019/944, adjustments to the registration of service and transmission points for service points with an installed generating facility, the implementation of simplified electricity sharing in apartment buildings, the introduction of a harmonized methodology for dividing customer consumption into calendar years at the low-voltage level, and the modification of the procedure for suppliers of last resort.

On December 20, 2023, Decree No. 375/2023 Coll., amending Decree No. 359/2020 Coll., on electricity metering, was published in the Collection of Laws, with effect from January 1, 2024. The Decree newly modifies the rules for setting up continuous measurement at generating facilities, the possibility of recording continuous meters, the procedure for calculating compensation for unauthorized consumption, and the amendment also includes other adjustments related to the amendment of the Energy Act (see above for details).

In addition, other regulations affecting electricity distribution were issued or amended in 2023:

On June 23, 2023, new Decree No. 194/2023 Coll., on dispatch control of the electricity system and on the transmission of data for dispatch control, was published in the Collection of Laws, replacing the original Decree No. 79/2010 Coll., on dispatch control of the electricity system and on the transmission of data for dispatch control, with effect from July 1, 2023. The Decree also modifies the procedure for activating the electricity system defense plan by transmission and distribution system operators. On June 23, 2023, Decree No. 193/2023 Coll., on the state of emergency in the electricity sector and on the contents of the emergency plan, was published in the Collection of Laws, replacing Decree No. 80/2010 Coll., with effect from January 1, 2024. The Decree newly adopts measures related to ensuring load coverage of Czechia's electricity system and replaces Decree No. 80/2010 Coll., on the state of emergency in the electricity sector and on the contents of the emergency plan.

On June 30, 2023, an amendment to Government Regulation No. 214/2023 Coll. was published in the Collection of Laws, amending Government Regulation No. 463/2022 Coll., on the determination of prices for electricity and gas in an emergency market situation supplied for losses in distribution grids and on the compensation provided for the supply of electricity and gas for losses at set prices, with effect from July 1, 2023. This Government Regulation implements the provisions of Section 19d(1) and (4) and Section 19f(8) of the Energy Act (as amended by Amendment No. 287/2022 Coll.), which sets the prices of electricity and gas supplied by electricity or gas traders to the distribution system operator for electricity or gas losses in the distribution system, the scope of electricity or gas supply for losses in which the specified electricity and gas prices are applied, and other conditions for applying the specified electricity and gas prices for losses, for the period from January 1, 2023 to December 31, 2023. This Regulation further establishes the procedures for the calculation and

payment of a demonstrable loss and a reasonable profit to electricity or gas traders who supply electricity or gas to the distribution system operator at a loss.

Government Regulation No. 5/2023 Coll., on the compensation provided for the supply of electricity and gas at set prices, was amended three times during 2023:

- On March 15, 2023, Government Regulation No. 65/2023 Coll. was published in the Collection of Laws, amending Government Regulation No. 5/2023 Coll., on the compensation provided for the supply of electricity and gas at set prices, with effect from April 1, 2023
- On March 30, 2023, Government Regulation No. 77/2023 Coll. was published in the Collection of Laws, amending Government Regulation No. 298/2022 Coll., on the determination of electricity and gas prices in an extraordinary market situation and on the determination of the related highest permissible range of the customer's financial benefit, as amended, and Government Regulation No. 5/2023 Coll., on the compensation provided for the supply of electricity and gas at set prices, as amended by Government Regulation No. 65/2023 Coll., with effect from April 1, 2023
- On September 14, 2023, Government Regulation No. 272/2023 Coll. was published in the Collection of Laws, amending Government Regulation No. 5/2023 Coll., on the compensation provided for the supply of electricity and gas at set prices, with effect from September 29, 2023.

On April 28, 2023, Decree No. 114/2023 Coll., on requirements for the safe installation of electricity generating facilities using renewable energy sources with an installed capacity of up to 50 kW, was published in the Collection of Laws. The effective date of the Decree is May 1, 2023. The Decree governs the requirements for the material design of electricity generating facilities using renewable electricity sources, for their shutdown and disconnection from electricity, for the design of the cable lines and for their installation as such.

Disclaimer: The Developments in the Legislative Framework for the Energy Sector section contains selected information concerning legislation and was drawn up with the greatest care possible. However, it cannot be regarded as qualified legal advice. ČEZ Distribuce, a. s. may not be held liable for any legal act performed or refrained from by anyone on the basis of the provided overview.

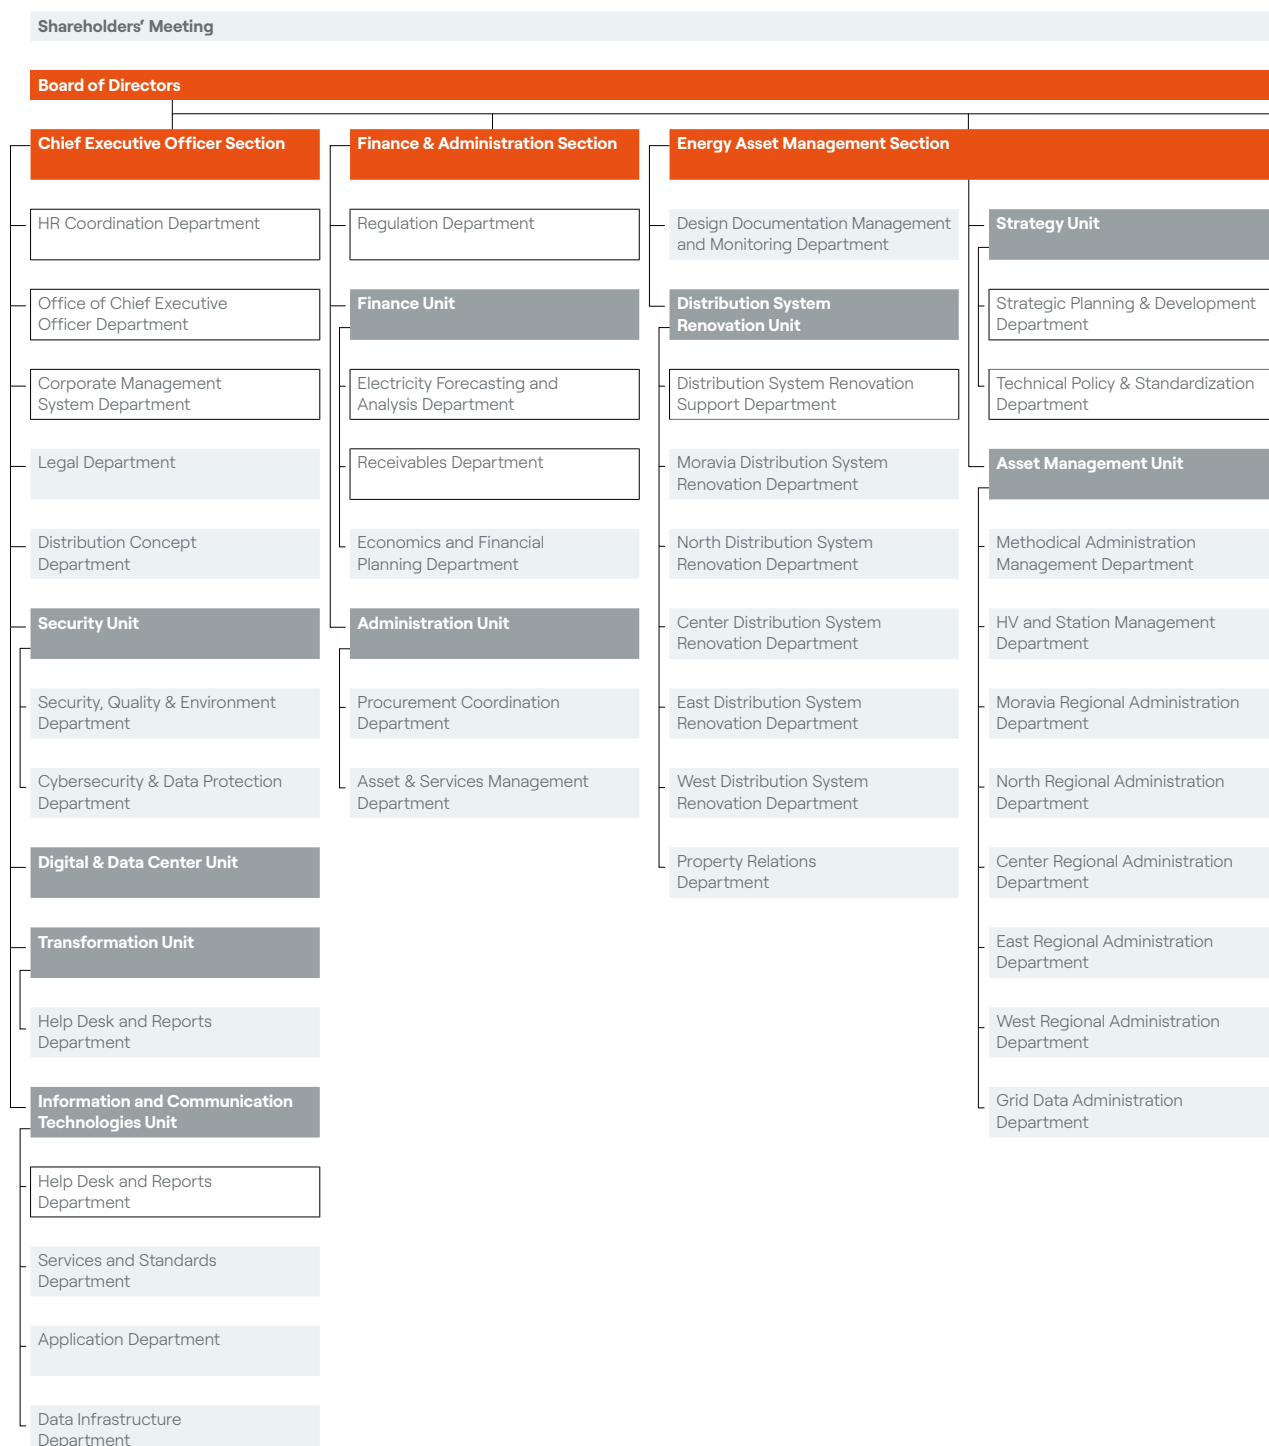

reliably

We have new assistants to prevent errors and to intervene quickly if necessary. These are new, modern elements and diagnostic devices that allow us to obtain more data on the operation of the distribution grid, and thus to identify and **reliably** eliminate occurring errors more quickly. We also continue to install smart metering in distribution transformer stations, which is a prerequisite for the introduction of smart grids. Last year, we fitted almost 5,500 distribution transformer stations with this metering, and overall we have already fitted more than 30% of them. Customers will especially welcome the shorter power outages, the increase in operational reliability and the possibility of increasing the connectivity of decentralized sources of electricity, charging stations for electric cars, etc.

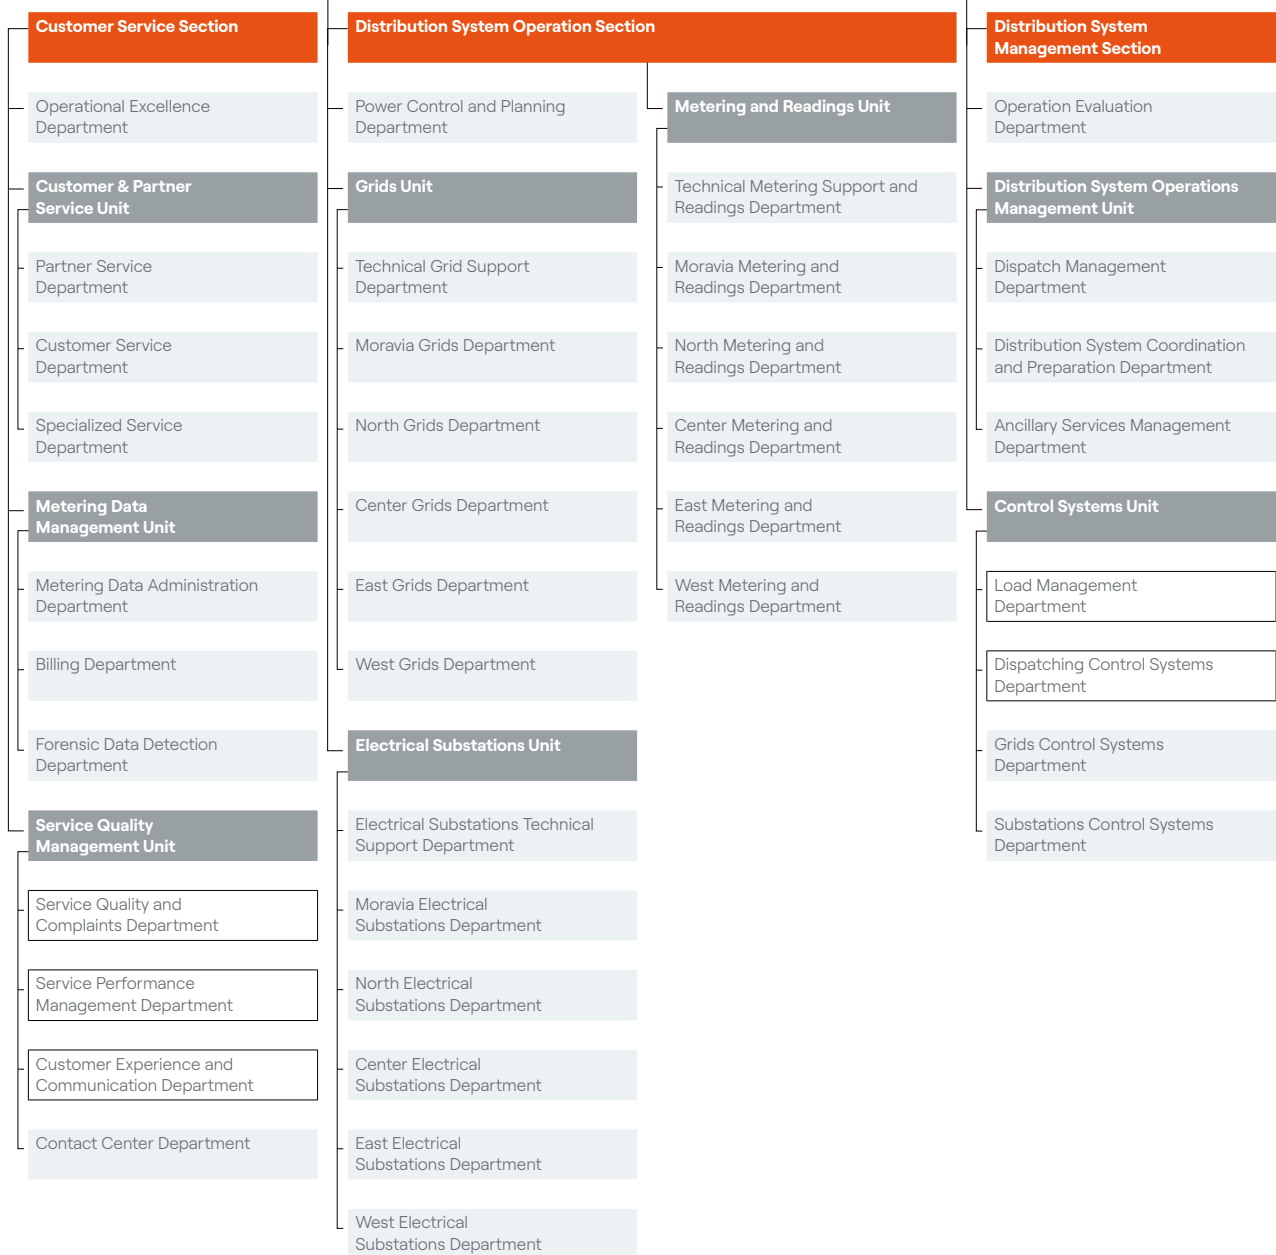

Basic Organization Chart of ČEZ Distribuce, a. s. as at April 1, 2024

Supervisory Board

Glossary of Terms and Abbreviations

Glossary of Terms and Abbreviations

Terms and Abbreviations	Commentary
Cash flow	Flow of cash
Cash pooling	A method of optimizing the management of bank accounts; using this method, the balances on the accounts of the participating companies are consolidated on a daily basis; contractually agreed credit and debit interest is calculated for the accounts involved in cash pooling
Czechia	Czech Republic
ČSN	Czech national standard
Distribution system (DS)	An interconnected set of 110 kV lines and equipment, except selected 110 kV lines and equipment that are part of the transmission system, and 0.4/0.23 kV, 3 kV, 6 kV, 10 kV, 22 kV, and 35 kV lines and equipment that serve to distribute electricity in a defined area of Czechia, including metering, protective, control, safeguarding, information, and telecommunications systems
EBIT	Earnings before interest and taxes
EBITDA	Earnings before interest, taxes, depreciation, and amortization
Electricity market operator (OTE)	A joint-stock company founded by the government, whose task is to organize the electricity market in Czechia, reconcile agreed and actual supply and consumption for market participants, ensure the settlement of differences between agreed and actual supplies, and organize the electricity spot market
EMS	Environmental management systems
EnMS	Energy management system
HV	High voltage – distribution infrastructure with phase-to-phase voltage over 52 kV
Large customers	Customers that use electricity from medium- and high-voltage grids
LV	Low voltage – distribution infrastructure with phase-to-phase voltage of 1 kV or less
MV	Medium voltage – distribution infrastructure with phase-to-phase voltage from 1 kV to 52 kV
OSH	Occupational safety and health
Renewable energy sources (RES)	Energy sources that are naturally renewable; these are hydroelectric, geothermal, solar, wind, or biomass combustion energy
Retail customers	The category of electricity consumption in which registered electricity consumers are connected to low-voltage networks (up to 1 kV); this category is further subdivided into residential and business customers
ROA	Return on assets
ROE	Return on equity
SAIDI – System Average Interruption Duration Index	Electricity distribution continuity indicator; the average cumulative duration of disruptions in the electricity distribution to customers on the grid during the period under assessment; expressed as minutes/year/customer
SAIFI – System Average Interruption Frequency Index	Electricity distribution continuity indicator; the average cumulative number of disruptions in the electricity distribution to customers on the grid during the assessment period; expressed as number/year/customer
TA CZ	Technology Agency of the Czech Republic
Transmission system (TS)	An interconnected set of 400 kV and 220 kV lines and equipment and selected 110 kV lines and equipment that serves for electricity transmission throughout Czechia and interconnection with the electricity systems of neighboring countries, including metering, protective, control, safeguarding, information, and telecommunications systems; the transmission system is established and operated in the public interest

List of Units and Abbreviations Used

Unit	Name
GWh	Gigawatt-hour; 1 GWh = 10 ⁹ Wh = 10 ⁶ kWh; Wh = unit of energy
km	Kilometer
kV	Kilovolt; 1 kV = 10 ³ V; V = unit of electric potential (voltage)
kW	Kilowatt; 1 kW = 10 ³ W; W = unit of power
m	Million
MVA	Megavolt-ampere; 1 MVA = 10 ⁶ VA; VA = unit of apparent (total) power
MW	Megawatt; 1 MW = 10 ⁶ W = 10 ³ kW; W = unit of power

Methods Used to Calculate Financial Indicators

Indicator	Description
Asset Turnover	Total Operating Revenue / Average Assets
Current ratio	(Current assets + Prepaid Expenses and Accrued Income) / (Current Liabilities + Short-Term Bank Loans and Borrowings + Prepaid Expenses and Accrued Income)
Depreciation-to-Net Plant in Service Ratio	-1* (Accumulated Depreciation and Allowances for Net Plant in Service) / Depreciated Net Plant in Service in Use, Gross
EBIT	Income before Other Income (Expenses) and Income Taxes
EBIT margin	EBIT / Operating Revenue
EBITDA	Income before Other Income (Expenses) and Income Taxes + Depreciation and Amortization
Financial Debt to Equity	(Long-Term Liabilities including Current Portion + Bonds + Short-Term Loans) / Average Equity
Net debt	Long-Term Liabilities including Current Portion + Short-Term Loans – Cash and Cash Equivalents – Highly Liquid Financial Assets
Net debt to EBITDA	(Long-Term Liabilities including Current Portion + Bonds + Short-Term Loans – Cash and Cash Equivalents – Highly Liquid Financial Assets) / Income before Other Income (Expenses) and Income Taxes + Depreciation and Amortization
Net income	Net Income (current period's profit or loss)
Noncurrent Asset Coverage	(Equity + Noncontrolling Interests + Long-Term Liabilities + Deferred Tax Liability) / Noncurrent Assets
Operating Cash Flow to Debt	Net Cash Flow from Operating Activities / Long-Term Liabilities
Return on Assets, Net (ROA Net)	Net Income / Average Total Assets
Return on Equity, Net (ROE Net)	Net Income / Average Equity
Total Debt to Total Capital	(Long-Term Liabilities including Current Portion + Short-Term Loans) / (Long-Term Debt including Current Portion + Short-Term Loans + Equity)

A close-up, shallow depth-of-field photograph of a person's arm resting on a light-colored wooden desk. The person is wearing a grey short-sleeved shirt and several bracelets on their wrist. In front of their hand is a white smartphone and some papers. The background is blurred, showing what appears to be a classroom or office setting with a blue chair and a whiteboard.

intelligently

We actively cooperate with young talents and involve them in our activities. We already start in secondary schools with dual education and the Prokop Diviš Motivational Program. Every year we open the door for school internships and offer opportunities for subsequent cooperation (Graduate, Intern positions). We participate in teaching at universities and support students as mentors and partners in student competitions, currently focusing on the development of new applications. By connecting theory, practice and fresh ideas, we are writing the story of digital excellence together and trying to create **intelligently** a bridge between education and the professional world.

Related Parties Report for 2023

The Board of Directors of ČEZ Distribuce, a. s., Company Reg. No. 24729035, having its registered office at Teplická 874/8, 405 02 Děčín – Děčín IV-Podmokly, registered in the Commercial Register maintained by the Regional Court in Ústí nad Labem under file No. B 2145 (hereinafter referred to as the “Company”), in accordance with Section 82 of Act No. 90/2012 Coll., on commercial companies and cooperatives (Business Corporations Act), as amended, has prepared and approved this Report on Relations between the Controlling Entity and the Controlled Entity and between the Controlled Entity and Entities Controlled by the Same Controlling Entity for the Accounting Period from January 1, 2023 to December 31, 2023 (hereinafter referred to as the “Related Parties Report”). When preparing this Related Parties Report, the Company’s Board of Directors applied knowledge and information available to members of the Company’s Board of Directors on the date of its preparation.

1. Structure of Relations between the Controlling Entity and the Controlled Entity and between the Controlled Entity and Entities Controlled by the Same Controlling Entity

Controlled and Managed Entity –
Author of the Related Parties Report:

ČEZ Distribuce, a. s.

Company Reg. No.: 24729035

Registered office: Teplická 874/8, 405 02 Děčín –
Děčín IV-Podmokly

Registered in the Commercial Register maintained by the
Regional Court in Ústí nad Labem, under file ref. B 2145.

Controlling/Managing Entity:

ČEZ, a. s.

Company Reg. No.: 45274649

Registered office: Duhová 2/1444, 140 53 Prague 4

Registered in the Commercial Register maintained by the
Municipal Court in Prague, under file No. B 1581
(hereinafter referred to as the “Controlling Entity”).

As at December 31, 2023, the Controlling Entity owned shares
of stock corresponding to a 100% share in the stated capital of
ČEZ Distribuce, a. s.

ČEZ Distribuce, a. s. is in the position of a Controlled Entity and
also in the position of a Managed Entity due to its membership
in CEZ Concern, which is managed by ČEZ, a. s. Other members
of CEZ Concern were also the following Managed Entities during
the reference period of January 1, 2023 to December 31, 2023:

AirPlus, spol. s r.o.

Areál Třeboradice, a.s.

AZ KLIMA a.s.

ČEZ Energetické produkty, s.r.o.

ČEZ Energetické služby, s.r.o.

ČEZ Energo, s.r.o.

ČEZ ENERGOSERVIS spol. s r.o.

ČEZ ESCO, a.s.

ČEZ ICT Services, a. s.

ČEZ Invest Slovensko, a.s.

ČEZ Obnovitelné zdroje, s.r.o.

ČEZ Prodej, a.s.

ČEZ Teplárenská, a.s.

Elektrárna Dukovany II, a. s.

Elektrárna Temelín II, a. s.

Energetické centrum s.r.o.

Energotrans, a.s.

ENESA, a.s.

HA.EM OSTRAVA, s.r.o.

KART, spol. s r.o.

MARTIA a.s.

OSC, a.s.

in PROJEKT LOUNY ENGINEERING s.r.o.

PRODECO, a.s.

Revitrans, a.s.

Severočeské doly a.s.

SD – Kolejová doprava, a.s.

Telco Infrastructure, s.r.o.

Telco Pro Services, a. s.

TENAUR, s.r.o.

Ústav aplikované mechaniky Brno, s.r.o.

CEZ Concern is part of a group of businesses controlled by the Czech Republic, represented by the Ministry of Finance. The Czech Republic, represented by the Ministry of Finance, owns shares corresponding to 69.78% of the stated capital of ČEZ, a. s.

The Controlling Entity, ČEZ, a. s., has prepared a relation structure diagram for the entire group of businesses controlled by the Czech Republic, represented by the Ministry of Finance. This diagram shows, among other things, the relations between the Controlling Entity and the Controlled Entity and between the Controlled Entity and entities controlled by the same Controlling Entity in the accounting period from January 1, 2023 to December 31, 2023, for which the Related Parties Report is prepared. The Board of Directors of ČEZ Distribuce, a. s. has no objections to the relation structure diagram. The relation structure diagram is presented in Annex 1 hereto and is an integral part hereof.

2. Role of the Controlling Entity in the Group of Businesses

CEZ Group's core business is the generation, distribution, trading, and sale of electricity and heat, trading and sale of natural gas, provision of comprehensive energy services in the new energy sector, and coal extraction. ČEZ Distribuce, a. s., as a CEZ Group member and a subsidiary of ČEZ, a. s., its sole shareholder, provides mainly licensed activities of a distribution grid operator and other activities and services related to the performance of the above-mentioned licensed activities. ČEZ Distribuce, a. s. performs all its activities in accordance with the business licenses it holds within the scope of its business defined in the Company's bylaws and registered in the Commercial Register.

3. Method and Means of Control

ČEZ, a. s. is the sole shareholder of ČEZ Distribuce, a. s., which gives it 100% of the voting rights. The exercise of the rights associated with the voting rights is the basic means of controlling ČEZ Distribuce, a. s., in particular through the appointment or removal of the members of the statutory body and the majority of the members of the Supervisory Board.

Within the framework of corporate governance, ČEZ, a. s. may give binding instructions to the entities under its control and may issue general and operational corporate instruments for this purpose. General concern instruments are shared CEZ Group documents and the Managing Entity's internal documents that are also intended for Managed Entities. Operating concern instruments are concern instructions given on an ad hoc basis. Fundamental documents having concern-wide application are Concern Management Policies governing primarily areas and activities that should be subjected to concern management and follow concern interests. Other means of control within CEZ Concern include mainly the approval of strategic programs, business strategies, business plans, and annual budgets.

In the case of ČEZ Distribuce, a. s. and ČEZ Energetické služby, s.r.o., concern management is applied in full respect of all requirements of the unbundling rules resulting from Act No. 458/2000 Coll., on the conditions for doing business and exercising state administration in energy industries and amending certain acts (Energy Act), as amended, and Directive (EU) 2019/944 of the European Parliament and of the Council of June 5, 2019 concerning common rules for the internal market in electricity and amending Directive 2012/27/EU, as amended.

4. List of Acts Performed in the Last Accounting Period that Were Performed at the Instigation or in the Interest of the Managing Entity or Entities Controlled by the Controlling Entity and Concerned Assets Exceeding 10% of the Equity of the Controlled Entity as Identified in its Financial Statements for the Accounting Period Immediately Preceding the Accounting Period for which the Related Parties Report Is Prepared

In the period of 2023, ČEZ Distribuce, a. s. did not perform any acts that would have been performed at the instigation of or in the interest of the Controlling Entity or entities controlled by the Controlling Entity regarding assets that exceed 10% of the equity of ČEZ Distribuce, a. s., as determined according to the financial statements for the accounting period immediately preceding the accounting period for which the Related Parties Report is prepared.

5. List of Mutual Contracts between the Controlled Entity and the Controlling Entity or between Controlled Entities

The Board of Directors of ČEZ Distribuce, a. s. has prepared the List of Mutual Contracts between ČEZ Distribuce, a. s. and the Controlling Entity, ČEZ, a. s., and between ČEZ Distribuce, a. s. and entities controlled by the same Controlling Entity, which were valid and effective in the accounting period from January 1, 2023 to December 31, 2023. The List of Mutual Contracts forms Annex 2 hereto¹⁾. In view of the need to ensure the protection of commercial confidentiality and the contractual obligation of confidentiality, the List of Mutual Contracts does not contain additional data and information on individual contractual relationships beyond the information contained therein.

6. Loss Incurred by the Controlled Entity and its Settlement

All transactions between ČEZ Distribuce, a. s. and the Controlling Entity or entities controlled by the same Controlling Entity were concluded under normal market conditions. The Board of Directors of ČEZ Distribuce, a. s. further states that ČEZ Distribuce, a. s. has not been harmed in any way by the actions of the Controlling Entity or an entity controlled by the same Controlling Entity.

In view of the foregoing, it may be concluded that ČEZ Distribuce, a. s. did not incur any damage in the accounting period from January 1, 2023 to December 31, 2023 on the basis of contractual and other relationships with related parties that should be compensated pursuant to Section 71 or Section 72 of Act No. 90/2012 Coll., on commercial companies and cooperatives (Business Corporations Act), as amended.

7. Conclusion

The Board of Directors of ČEZ Distribuce, a. s. assessed the overall impact of CEZ Group on the existence and operations of ČEZ Distribuce, a. s., and also whether inclusion in CEZ Group brings more advantages or more disadvantages, or what are the risks for ČEZ Distribuce, a. s. resulting from this.

The Board of Directors of ČEZ Distribuce, a. s. has not noted any disadvantages arising from relations between the Controlling Entity and the Controlled Entity or from relations with entities controlled by the same Controlling Entity. The Board of Directors is also not aware of any risks arising from these relationships beyond the extent customary in business relationships between independent entities.

For ČEZ Distribuce, a. s., the benefits of relations within CEZ Group prevailed in the accounting period of 2023, consisting mainly of financial strength, a reputable brand name, shared values, corporate culture, and uniform standards in risk management and occupational safety and health. ČEZ Distribuce, a. s. also uses the synergies within CEZ Group, its professional potential for effective performance of its licensed activities and related ancillary services, and involvement in the system of internal control mechanisms, insurance program, safety and quality management system.

The Board of Directors of ČEZ Distribuce, a. s. declares that the Related Parties Report has been prepared to the best of its knowledge and that the Board of Directors of ČEZ Distribuce, a. s. has made every effort in obtaining and verifying information for the purposes of this Related Parties Report.

8. Annexes

Annex 1 Relation Structure Diagram for the Period of January 1, 2023 to December 31, 2023

Annex 2 List of Mutual Contracts between the Controlled Entity and the Controlling Entity or between Controlled Entities

The Related Party Report is subject to verification by an auditor and will be submitted to the Supervisory Board of ČEZ Distribuce, a. s., for review in accordance with the provisions of Section 12(8)(d) in conjunction with Section 19(3)(d) of the bylaws of ČEZ Distribuce, a. s.

The Board of Directors of ČEZ Distribuce, a. s. approved this Related Parties Report on February 27, 2024.

Prague, February 27, 2024

Independent Auditor's Report To the Shareholder of ČEZ Distribuce, a. s.

Having its registered office at: Teplická 874/8, 405 02 Děčín IV-Podmokly

Opinion

We have audited the accompanying financial statements of ČEZ Distribuce, a. s. (hereinafter also the "Company") prepared on the basis of accounting regulations applicable in the Czech Republic, which comprise the balance sheet as at 31 December 2023, and the profit and loss account, statement of changes in equity and cash flow statement for the year then ended, and notes to the financial statements, including material accounting policy information.

In our opinion, the accompanying financial statements give a true and fair view of the financial position of ČEZ Distribuce, a. s. as at 31 December 2023, and of its financial performance and its cash flows for the year then ended in accordance with accounting regulations applicable in the Czech Republic.

Basis for Opinion

We conducted our audit in accordance with the Act on Auditors and Auditing Standards of the Chamber of Auditors of the Czech Republic, which are International Standards on Auditing (ISAs), as amended by the related application guidelines. Our responsibilities under this law and regulation are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report. We are independent of the Company in accordance with the Act on Auditors and the Code of Ethics adopted by the Chamber of Auditors of the Czech Republic and we have fulfilled our other ethical responsibilities in accordance with these requirements. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

Other Matter

The financial statements of ČEZ Distribuce, a. s. for the year ended 31 December 2022 were audited by another auditor who expressed an unmodified opinion on those statements on 25 April 2023.

Deloitte refers to one or more of Deloitte Touche Tohmatsu Limited ("DTTL"), its global network of member firms, and their related entities (collectively, the "Deloitte organization"). DTTL (also referred to as "Deloitte Global") and each of its member firms and related entities are legally separate and independent entities, which cannot obligate or bind each other in respect of third parties. DTTL and each DTTL member firm and related entity is liable only for its own acts and omissions, and not those of each other. DTTL does not provide services to clients. Please see www.deloitte.com/about to learn more.

Other Information in the Annual Report

In compliance with Section 2(b) of the Act on Auditors, the other information comprises the information included in the Annual Financial Report other than the financial statements, consolidated financial statements and auditor's reports thereon. The Board of Directors is responsible for the other information.

Our opinion on the financial statements does not cover the other information. In connection with our audit of the financial statements, our responsibility is to read the other information and, in doing so, consider whether the other information is materially inconsistent with the financial statements, or our knowledge obtained in the audit or otherwise appears to be materially misstated. In addition, we assess whether the other information has been prepared, in all material respects, in accordance with applicable law or regulation, in particular, whether the other information complies with law or regulation in terms of formal requirements and procedure for preparing the other information in the context of materiality, i.e. whether any non-compliance with these requirements could influence judgments made on the basis of the other information.

Based on the procedures performed, to the extent we are able to assess it, we report that:

- The other information describing the facts that are also presented in the financial statements is, in all material respects, consistent with the financial statements; and
- The other information is prepared in compliance with applicable law or regulation.

In addition, our responsibility is to report, based on the knowledge and understanding of the Company obtained in the audit, on whether the other information contains any material misstatement of fact. Based on the procedures we have performed on the other information obtained, we have not identified any material misstatement of fact.

Responsibilities of the Company's Board of Directors and Supervisory Board for the Financial Statements

The Board of Directors is responsible for the preparation and fair presentation of the financial statements in accordance with accounting regulations applicable in the Czech Republic and for such internal control as the Board of Directors determines is necessary to enable the preparation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, the Board of Directors is responsible for assessing the Company's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless the Board of Directors either intends to liquidate the Company or to cease operations, or has no realistic alternative but to do so.

The Supervisory Board is responsible for overseeing the Company's financial reporting process.

Auditor's Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with ISAs will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these financial statements.

As part of an audit in accordance with the above law or regulation, we exercise professional judgment and maintain professional skepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Company's internal control.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by the Board of Directors.
- Conclude on the appropriateness of the Board of Directors' use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Company's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Company to cease to continue as a going concern.
- Evaluate the overall presentation, structure and content of the financial statements, including the disclosures, and whether the financial statements represent the underlying transactions and events in a manner that achieves fair presentation.

We communicate with the Board of Directors and the Supervisory Board regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

ČEZ Distribuce, a. s.

Notes to the Financial Statements

for the Year Ended December 31, 2023

1. Description of the Company

ČEZ Distribuce, a. s., with its registered office at Děčín – Děčín IV-Podmokly, Teplická 874/8, Postcode 405 02, Corporate ID No.: 24729035, registered in the Register of Companies kept by the Regional Court in Ústí nad Labem under the File No. B 2145 (hereinafter referred to as the “Company”), is a joint stock company that was established as a successor company as a result of a merger of the merging companies ČEZ Distribuční zařízení, a.s., with its registered office at Praha 4-Michle, Duhová 2/1444, Postal Code 140 53, Corporate ID No.: 28922727, registered in the Register of Companies kept by the Municipal Court in Prague under the File No. B 15391, and ČEZ Distribuce, a. s., with its registered office at Děčín IV-Podmokly, Teplická 874/8, Postal Code 405 02, Corporate ID No.: 27232425, registered in the Register of Companies kept by the Regional Court in Ústí nad Labem under the File No. B 1704, with the specified date of the merger on 1 January 2010 and the effective date from 1 October 2010. As a result of the merger, the assets of the merging companies, including the rights and obligations arising from labour relations, were transferred to the successor company, which assumed the trade name ČEZ Distribuce, a. s.

The main business activity of the Company is the distribution of electricity and the operation of the grid.

The sole shareholder of the Company is ČEZ, a. s., Praha 4, Duhová 2/1444, Postcode 140 53, Corporate ID No.: 45274649.

The Company is a part of the ČEZ Group and a member of the ČEZ Concern, which is headed by ČEZ, a. s. as the controlling entity.

Members of statutory bodies as of 31 December 2023:

Board of Directors		Supervisory Board	
Chair:	Martin Zmellik	Chair:	Daniel Beneš
Vice-Chair:	Radim Černý	Vice-Chair:	Pavel Cyrani
Member:	Lucie Masopustová	Member:	Jan Brožík
Member:	Martin Molinger	Member:	Monika Gibfriedová
Member:	Jakub Hlavica	Member:	Jaroslav Říčař
		Member:	Marek Šlégl

These facts correspond to the entry in the Register of Companies as at 31 December 2023.

The Company is organised into the following divisions:

- CEO Office
- Finance & Administration Division
- Energy Assets Administration Division
- Customer Services Division
- Grid Operations Division
- Grid Management Division

2. Basis of Presentation of the Financial Statements

The accompanying financial statements were prepared in accordance with the Czech Act on Accounting and the related guidelines as applicable for 2023 and 2022.

The financial statements for the year ended 31 December 2023 have been prepared assuming that the Company will continue as a going concern.

Explanation Added for Translation into English

These financial statements are presented on the basis of accounting principles and standards generally accepted in the Czech Republic. Certain accounting practices applied by the Company that conform with generally accepted accounting principles and standards in the Czech Republic may not conform with generally accepted accounting principles in other countries.

3. Summary of Significant Accounting Policies

The accounting policies applied by the Company in preparing the 2023 and 2022 financial statements are as follows:

a) Intangible Fixed Assets

Intangible fixed assets are recorded at their acquisition cost and related expenses. Interest on loans and borrowings are not considered to be part of these costs.

Intangible fixed assets with a cost exceeding CZK 60 thousand acquired until 31 December 2020 and exceeding CZK 80 thousand starting 1 January 2021 onwards are amortized over their useful economic lives.

Intangible fixed assets include software provided that it has been developed internally for trading purposes, or it has been acquired from other parties, irrespective of its valuation. The above also applies to software licenses, if such licenses are not part of the valuation of the acquired software, or part of the technical improvement of the existing software.

Amortization

Amortization is calculated based on the acquisition cost and the estimated useful life of the related asset.

The useful economic lives are as follows:

	Number of Years
Research and development	6
Software	4-6
Other valuable rights	6
Other intangible fixed assets	6

The costs of technical improvements of intangible fixed assets are capitalized. Repairs and maintenance expenses are expensed as incurred.

b) Tangible Fixed Assets

Tangible fixed assets are recorded at their acquisition cost, which consists of purchase price, freight, customs duties and other related costs. Interest on loans and borrowings are not considered to be part of these costs.

Tangible fixed assets belonging to the category of tangible movable assets and sets of tangible movable assets – machinery, and equipment, vehicles and furniture and fixtures related to the licensed activities of a company distributing electricity with a cost exceeding CZK 5 thousand are depreciated over their useful economic lives. Transformer station technologies, transformers of the distribution company and power meters are deemed the tangible fixed assets regardless of their valuation.

Easements on land and building, excluding the right to use and enjoy, are also deemed the tangible fixed assets regardless of their valuation, unless they are reported as part of the building valuation.

Internally developed tangible fixed assets are recorded at their accumulated cost, which consists of direct material, labour costs and production overheads.

Tangible fixed assets acquired free of charge are valued at their replacement cost and are recorded with a corresponding credit to the 'Other capital funds' account on the date of acquisition. The costs of technical improvements of tangible fixed assets increase the cost of the assets. Repairs and maintenance services are expensed as incurred.

Depreciation

Depreciation is calculated based on the acquisition cost and the estimated useful life of the related asset. The useful economic lives are as follows:

	Years
Structures	10-50
Machinery and equipment	4-30
Vehicles	5-10
Furniture and fixtures	5-30
Miscellaneous	6-30

Acquisition costs and net book values of amortised and depreciated intangible and tangible fixed assets were revalued in an expert opinion as at 1 January 2010. The revaluation of acquisition costs and net book values of assets was made in connection with the merger project (see Note 1).

c) Financial Assets

Non-current financial assets consist of equity investments. Equity investments in subsidiaries and associates are measured at cost.

If the carrying amount of non-current financial assets decreases, the difference is treated as a temporary impairment and is recognised as a provision.

d) Cash

Cash includes liquid valuables, and cash at bank.

Within the ČEZ Group, a system for utilization of idle money of individual group companies, i.e. cash pool, has been introduced.

Cash deposited in or used from this system as at the date of the financial statements is reported in 'Short-term receivables – controlled or controlling entity' or 'Current liabilities – controlled or controlling entity', as appropriate, in the accompanying balance sheet and the change in the deposited cash is reported in 'Change in receivables/liabilities from Group's cash pooling' in the accompanying cash flow statement.

e) Inventory

Purchased inventory is stated at cost being determined using the weighted average method. Costs of purchased inventory include acquisition-related costs (freight, customs, commission, etc.).

Finished goods and work-in-progress (services) are recorded at actual cost. Actual cost includes, in particular, direct costs of material, manufacturing costs of relaying and cost of inventory produced internally. The cost of inventory produced internally includes direct labour costs, including overhead costs, and are allocated to work-in-progress on the basis of hours actually worked.

f) Receivables

Receivables are initially measured at their nominal amount. Purchased receivables are measured at cost. Receivables are carried at their realizable value after allowance for doubtful accounts.

g) Equity

The basic capital of the Company is stated at the amount recorded in the Register of Companies maintained in the Registry Court. Any increase or decrease in the basic capital made pursuant to the decision of the General Meeting which was not entered in the Register of Companies as at the balance sheet date is recorded through changes in basic capital. Contributions in excess of basic capital are recorded as share premium. Other capital funds consist of monetary and non-monetary contributions in excess of basic capital, such as tangible assets donations, etc.

In accordance with the Articles of Association, the Company creates a reserve from profit.

The Company establishes a reserve fund from profit after tax disclosed in the annual financial statements in the year in which profit is generated for the first time; the reserve fund is allocated a minimum of 20% of profit after tax, however, not more than 10% of basic capital.

The reserve fund is allocated 5% of profit after tax for each particular year until the fund reaches 20% of basic capital of the Company. The fund can only be used to offset losses. The amounts used from the fund are replenished in the same manner as the reserve fund has been established.

h) Provisions and Liabilities

The Company creates statutory provisions in accordance with the Act on Provisions and provisions for losses and risks if the related purpose, amount and timing can be reliably estimated and the accrual and matching principles are observed.

Long-term liabilities and current liabilities are carried at their nominal values.

Long-term liabilities and current liabilities to credit institutions are recorded at their nominal values. Any portion of long-term debt to credit institutions that is due within one year of the balance sheet date is classified as short-term debt.

Contingent liabilities that are not recorded in the balance sheet because significant uncertainties exist with respect to their amount, purpose or timing are described in Note 15.

i) Leases

The Company records leased assets by expensing the lease payments and, for finance leases, capitalizing the residual value of the leased assets when the lease contract expires and the purchase option is exercised.

j) Foreign Currency Transactions

Assets and liabilities whose acquisition or production costs were denominated in foreign currencies are translated into Czech crowns at the exchange rate existing at the transaction date. On the balance sheet date monetary items are adjusted to the exchange rates published by the Czech National Bank at 31 December.

Realized and unrealized exchange rate gains and losses were charged or credited, as appropriate, to finance income for the year.

k) Use of Estimates

The preparation of financial statements requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities at the balance sheet date and the reported amounts of revenues and expenses during the reporting period. The Company management prepared these estimates and predictions based on all available relevant information. However, as is clear from the very nature of the estimates, they may differ from actual results in the future.

l) Recognition of Revenues and Expenses

Revenues and expenses are recognized on an accrual basis, that is, they are recognized in the periods in which the actual flow of the related goods or services occurs, regardless of when the related monetary flow arises.

Proceeds from long-term contracts are accounted for when the contract is completed and billed as specified in the contract.

The Company recognizes as an expense any additions to provisions for or allowances against risks, losses or physical damage that are known as at the financial statements' date.

Revenues from distribution services are recorded at the time of the distributed electricity delivery. Total revenues from provided services comprise the billing and changes in unbilled distribution services. The Company records these revenues as revenues from sale of finished products and services. Costs of electricity distribution and the power grid operation are recorded as service consumption (mainly system and transmission services) and consumption of material and energy.

Changes in unbilled distribution services are set monthly on the basis of estimation. The estimation of monthly change of unbilled distribution services comes from deliveries of electricity in the given month after deduction of actual billing and estimation of distribution network losses. The total estimation is verified by calculation which is based on the load simulation at each point of delivery on the basis of temperature-adjusted load profiles. The actual billed distribution service amounts may differ from the estimation.

m) Income Tax

The corporate income tax expense is calculated based on the statutory tax rate and book income before taxes, increased or decreased by the appropriate permanent and temporary tax-non-deductible expenses and non-taxable revenues (e.g. charge for and release of other provisions and allowances, entertainment expenses, differences between book and tax depreciation, etc.). In addition, the following items are taken into consideration: tax base decreasing items (donations), tax deductible items and income tax reliefs.

The Company records an outstanding income tax liability, net of paid tax prepayments, in provisions. If income tax prepayments exceed the estimate of current income tax expense as at the balance sheet date, the difference will be recorded as a short-term receivable.

The deferred tax position reflects the net tax effects of temporary differences between the carrying amounts of assets and liabilities for financial reporting purposes and the amounts used for corporate income tax purposes, taking into consideration the period of realization.

Deferred tax asset is recognized when it becomes probable that the asset will be realized in the future.

The Company will be obliged to apply the international tax reform – model rules of the second pillar of BEPS for the period from 1 January 2024 at the earliest. The estimated impact of the top-up tax from this tax reform on the Company is immaterial as of the date of these financial statements.

n) Grants

The Company accounts for revenue associated with the use of public support in the form of operating grants when there is reasonable assurance that the Company will meet the conditions associated with the grant and that the grant will be received.

o) Subsequent Events

The impact of events that occurred between the balance sheet date and the date of the financial statements' preparation is recognized in the financial statements provided these events provide additional evidence about conditions that existed at the date of the balance sheet.

If material events reflecting the facts occurring after the balance sheet date happened between the balance sheet date and the date of the financial statements' preparation the consequences of these events are disclosed in the notes to the financial statements but not recognized in the financial statements.

4. Fixed Assets

The total value of tangible assets which are not reflected in the accompanying balance sheet was CZK 29,697 thousand and CZK 33,033 thousand at acquisition cost as at 31 December 2023 and 2022, respectively.

c) Long-term investments (in CZK thousands)

In May 2023, Grid Design, s.r.o. was established, where ČEZ Distribuce, a. s. made an equity contribution in the amount of CZK 510 thousand and thus became the owner of 51% of the shares.

The Company was entered into the Register of Companies on 11 May 2023.

Based on the Shareholders Agreement, ČEZ Distribuce, a. s. acquired shares of Elektroenergetické datové centrum, a.s., with its registered office at Na Hroudě 1492/4, Praha 10.

The Company was entered into the Register of Companies on 13 December 2023.

The Company's registered capital is divided into 60,000,000 (in words: sixty million) shares with a nominal value of CZK 1 (in words: one Czech Crown). All shares are issued as book-entry shares.

ČEZ Distribuce, a. s. thus became the owner of 25% of the shares, i.e. 15,000,000 shares worth CZK 15,000 thousand.

Controlled entities and associates as at 31 December 2023 (in CZK thousand):

Name of Company and Legal Status	Grid Design, s.r.o.	Elektroenergetické datové centrum, a.s.
Registered office	Vyskočilova 1461/2a, Michle 140 00 Praha 4	Na Hroudě 1492/4, Vršovice 100 00 Praha 10
Shares in %	51%	25%
Total assets	85,227	60,000
Equity	(21,140)	59,638
Registered capital and capital funds	3,613	60,000
Reserve from profit	–	–
Retained earnings	–	–
Profit (+)/Loss (–) of the current period	(24,753)	(362)

The financial information of Grid Design, s.r.o. was obtained from audited financial statements, the financial information of Elektroenergetické datové centrum, a.s. was obtained from unaudited financial statements.

5. Inventory

Excess, obsolete and slow moving inventory has been written down to its estimated net realizable value by an allowance account (see Note 7).

6. Receivables

Allowances against outstanding receivables that are considered doubtful were recognised based on collectability and ageing analysis of receivables (see Note 7).

As at 31 December 2023 and 2022, receivables overdue for more than 30 days totalled CZK 1,329,359 thousand and CZK 1,539,932 thousand, respectively.

As at 31 December 2023 and 2022, receivables of CZK 62,992 thousand and CZK 62,992 thousand, respectively, are subject to the claim process concerning the POZE legal dispute (see Note 15) and receivables of CZK 599,617 thousand and CZK 796,121 thousand, respectively, are subject to claim procedures for system services.

As at 31 December 2023 and 2022, receivables overdue for more than 5 years totalled CZK 1,016,547 thousand and CZK 861,095 thousand, respectively.

The Company wrote off receivables of CZK 31,953 thousand and CZK 20,043 thousand in 2023 and 2022, respectively, as they were irrecoverable or due to unsatisfying the claims in bankruptcy proceedings.

The Company is part of the cash-pooling structure administered by Komerční banka, a.s. on behalf of the ČEZ Group.

Cash in CZK transferred to the parent Company ČEZ, a. s., within the cash pool mechanism bears an interest rate of PRIBOR O/N – 0.50% p.a. (receivables).

Cash in CZK provided by the parent Company within the cash pool mechanism bears an interest rate of PRIBOR O/N + 0.30% p.a. (payables).

A credit rate limitation (receivables) – if a one-day interest rate of PRIBOR O/N minus margin is less than or equal to zero, a minimum rate of 0.03% p.a. shall apply.

A debit rate limitation (payables) – if an interest rate of PRIBOR O/N is less than zero, the rate shall be zero.

Cash in EUR transferred to the parent Company ČEZ, a. s. within the cash pool mechanism bears an interest rate as per the respective KB Notification on interest rates in a foreign currency, currently 0.00% p.a. (receivables).

Cash in EUR provided by the parent Company within the cash pool mechanism bears an interest rate of €STR O/N + 1.55% p.a. (payables).

A debit rate limitation (payables) – if an interest rate of €STR O/N is less than zero, the rate shall be zero.

The balance of cash transferred to the parent Company ČEZ, a. s., within the cash pool system was CZK 6,238,885 thousand and CZK 7,714,196 thousand as at 31 December 2023 and 2022, respectively.

As at 31 December 2023 and 2022, the Company had CZK 9,900 thousand and CZK 9,742 thousand, respectively, of long-term receivables, net.

Receivables from related parties (see Note 19).

Short-term advances granted include operating advances paid.

Unbilled revenue represents, in particular, unbilled distribution services.

Changes in unbilled distribution services in 2023 and 2022 were as follows (in CZK thousands):

Unbilled distribution services	Total	Retail business	Unbilled distribution services
Ending balance as at 31/12/2021	10,475,588	2,106,073	8,369,515
Changes in 2022	(387,271)	29,960	(417,231)
Ending balance as at 31/12/2022	10,088,317	2,136,033	7,952,284
Changes in 2023	(1,398,668)	(226,687)	(1,171,981)
Ending balance as at 31/12/2023	8,689,649	1,909,346	6,780,303

7. Allowances

Allowances reflect a temporary diminution in the value of assets.

Changes in the allowance accounts (in CZK thousands):

Allowances	Balance as at 31/12/2021	Additions	Deductions	Balance as at 31/12/2022	Additions	Deductions	Balance as at 31/12/2023
Inventory	–	–	–	–	–	–	–
Receivables	703,902	113,643	(97,442)	720,103	594,108	(227,837)	1,086,374
of which: statutory	648,605	54,070	(35,804)	666,871	395,104	(60,954)	1,001,021
accounting	55,297	59,573	(61,638)	53,232	199,004	(166,883)	85,353

Statutory allowances are created in compliance with the Act on Provisions and are tax deductible.

8. Prepaid Expenses and Accrued Income

As at 31 December 2023 and 2022, prepaid expenses include in particular accrued fees for arranging loans of CZK 20,110 thousand and CZK 23,953 thousand, respectively.

Expenses are charged in the period in which they were incurred.

9. Equity

The basic capital of the Company consists of 600 registered shares in a certificate form with a nominal value of CZK 100,000,000 per share. The shares are transferable only with the consent of the Board of Directors which is based on a prior approval by the Supervisory Board. All shares are fully subscribed and paid.

Subject to the decision of the sole shareholder executing the powers of the general meetings of the Company held on 23 June 2023 and 15 June 2022, the following profit distribution for 2022 and 2021 was approved (in CZK thousands):

Profit for 2021	6,626,507	Profit for 2022	6,343,610
Transfer to retained earnings	2,691,507	Transfer to retained earnings	2,537,610
Dividend paid out of 2021 profit	3,935,000	Dividend paid out of 2022 profit	3,806,000
Retained earnings as at 1/1/2022	13,463,469	Retained earnings as at 1/1/2023	16,154,976
Retained earnings as at 31/12/2022	16,154,976	Retained earnings as at 31/12/2023	18,692,586

Distribution of profit for 2023 was not decided by the financial statements date.

10. Provisions

The movements in the provision accounts were as follows (in CZK thousands):

Provisions	Balance as at 31/12/2021	Additions	Deductions	Balance as at 31/12/2022	Additions	Deductions	Balance as at 31/12/2023
Provision for corporate income tax	–	–	–	–	–	–	–
Other reserves	1,967,413	75,061	(76,084)	1,966,390	385,472	(123,154)	2,228,708

As at 31 December 2023 and 2022, the provision for corporate income tax was offset against paid prepayments totalling CZK 931,949 thousand and CZK 1,298,117 thousand, respectively. As at 31 December 2023 and 2022, the Company recognized a receivable of CZK 123,848 thousand and CZK 154,606 thousand, respectively, after offsetting with the advance payments. The receivable was recognized in Due from government – tax receivables.

Other provisions were created, in particular, for retirement benefits and 50 years jubilee bonuses paid under collective agreement.

As at 31 December 2023, the Company released a provision for restructuring in the amount of CZK 23,838 thousand which was charged as of 31 December 2022.

As at 31 December 2023 and 2022, the Company had a provision for pending litigation in the amount of CZK 74,779 thousand and CZK 42,779 thousand, respectively.

11. Long-term Liabilities

As at 31 December 2023 and 2022, the Company had the following significant long-term liabilities (in CZK thousands):

	Due by	31/12/2023	31/12/2022
4th credit line	31/12/2025	980,000	1,540,000
5th credit line	25/9/2028	17,000,000	17,000,000
6th credit line	31/5/2030	5,645,640	6,514,200
7th credit line	31/5/2032	8,624,100	4,492,700
Total		32,249,740	29,546,900
Current portion		2,443,160	2,443,160
Long-term portion		29,806,580	27,103,740

A contract for 4th credit line was signed by and between ČEZ Distribuce, a. s., (debtor) and ČEZ, a. s., (creditor) on 2 March 2015. The first portion of the loan was withdrawn on 11 March 2015 in the amount of CZK 2,800,000 thousand. The second portion of the loan was withdrawn on 21 August 2015 in the amount of CZK 2,800,000 thousand. The loan is repayable by 31 December 2025. The interest rate has been set at 2.4% p.a. The loan under the 4th credit line was provided to finance the implementation of the Project of reconstruction and development of the power grid in the Czech Republic (the "Project").

A contract for 5th credit line was signed by and between ČEZ Distribuce, a. s., (debtor) and ČEZ, a. s., (creditor) on 25 September 2018. The credit line as per the contract is CZK 30,000,000 thousand. The first withdrawal in the amount of CZK 17,000,000 thousand was made on 29 November 2018. The interest rate has been set at 3.0% p.a.

A contract for 6th credit line was signed by and between ČEZ Distribuce, a. s., (debtor) and ČEZ, a. s., (creditor) on 10 August 2020, the loan was withdrawn on 18 August 2020 in the amount of CZK 8,685,000 thousand. The loan is repayable by 31 May 2030. The interest rate has been set at 2.6% p.a. The loan was provided to finance the Project of strengthening and development of the power grid (the "Project").

A contract for 7th credit line was signed by and between ČEZ Distribuce, a. s., (debtor) and ČEZ, a. s., (creditor) on 30 March 2022; the first portion of the loan was withdrawn on 27 July 2022 in the amount of CZK 5,000,000 thousand, the second portion of the loan was withdrawn on 27 February 2023 in the amount of CZK 5,146,000 thousand. The loan is repayable by 31 May 2032. The interest rate has been set at 5.01% p.a. The loan was provided to finance the implementation of the Project of investments in strengthening and development of the power grid (the "Project").

The contracts for 4th, 6th and 7th credit lines with ČEZ, a. s., include the following terms and conditions to be fulfilled by the Company:

1. Maintenance	To maintain, repair and refurbish real estate that is part of the Project
2. Assets	To maintain legal title to and possession of the assets that are part of the Project
3. Insurance	To insure all work and real estate that is part of the Project
4. Servitude and beneficial use	To maintain the rights to use and enjoy necessary for the Project operation
5. Environment	To implement the Project in compliance with the environment protection legislation

The Company was in compliance with these terms and conditions as at 31 December 2023 and 2022.

The interest expense relating to the loans for 2023 and 2022 was CZK 1,141,917 thousand and CZK 854,775 thousand, respectively.

The aggregate maturities of loans as at 31 December 2023 are as follows (in CZK thousands):

	Loans
2024	2,443,160
2025	2,303,160
2026	1,883,160
2027	1,883,160
2028	18,883,160
2029 and thereafter	4,853,940
Total	32,249,740

In addition, the Company undertook to pay interest and principal according to the payment schedule, inform the creditor of significant overdue payables and not to change the Company's ownership structure.

12. Current Liabilities

As at 31 December 2023 and 2022, the Company had current liabilities overdue for more than 30 days totalling CZK 3,020 thousand and CZK 1,640 thousand, respectively. As at 31 December 2023 and 2022, the Company had no liabilities overdue for more than 5 years.

As at 31 December 2023 and 2022, the Company had liabilities of CZK 127,378 thousand and CZK 112,499 thousand owing to social security and health insurance premiums due in January 2024 and January 2023, respectively.

As at 31 December 2023 and 2022, short-term advance payments received of CZK 10,198,868 thousand and CZK 11,436,293 thousand, respectively, cover, in particular, unbilled distribution services.

Unbilled deliveries represent, in particular, unbilled services related to electricity distribution, unbilled deliveries of electricity purchased to cover power grid losses and unpaid vacation claims for 2023 and 2022.

Payables to related parties (see Note 19).

13. Accruals and Deferred Income

Deferred income includes, in particular, contributions for reasonable costs incurred for connection and assuring the required power input and in case of switching installations diversion to separate constructions related to them. It is recognized into income for the year in which it was earned. These are in particular connection fees within the meaning of Act No. 458/2000 Coll. (the Energy Act) and Decree No. 16/2016 Coll. of the Energy Regulatory Office. These fees are credited to income by the Company in compliance with its internal regulations in the amount of 1/20 of collected fees per annum.

In 2023 and 2022, the movements in deferred income balance (in CZK thousands) comprising, in particular, contributions for reasonable costs incurred for connection and assuring the required power input and in case of switching installations diversion to separate constructions related to them were as follows:

Balance as at 31/12/2021	9,559,292
Additions in 2022	1,986,035
Released to revenues in 2022	(906,733)
Balance as at 31/12/2022	10,638,594
Additions in 2023	2,418,475
Released to revenues in 2023	(989,847)
Balance as at 31/12/2023	12,067,222

14. Income Taxes

On the basis of preliminary calculation the Company calculated tax expense as follows (in CZK thousands):

	2023	2022
Profit before taxes	6,238,185	7,861,118
Difference between book and tax depreciation	(1,782,997)	(1,344,160)
Difference between net book value of disposed fixed assets for accounting and tax purposes	63,645	80,446
Non-deductible expenses		
Creation of provisions	262,318	(1,022)
Creation/release of allowances	32,121	(2,065)
Other	95,145	241,707
Taxable income	4,908,417	6,836,024
Current income tax rate	19%	19%
Tax	932,599	1,298,845
Tax reliefs	(651)	(728)
Provision for corporate income tax	931,948	1,298,117
Adjustment of the tax paid in previous years	(2,128)	(1,487)
Current tax expense	929,820	1,296,630

The Company submits its regular tax return prior to 30 June 2024.

The Company quantified deferred taxes as follows (in CZK thousands):

Deferred tax items	31/12/2023		31/12/2022	
	Deferred tax asset	Deferred tax liability	Deferred tax asset	Deferred tax liability
Difference between net book value of fixed assets for accounting and tax purposes	–	(14,148,969)	–	(12,474,657)
Other temporary differences:				
Allowances against receivables	17,717	–	10,006	–
Provisions	452,325	–	365,486	–
Other	71,381	(4,411)	90,706	(21,353)
Total	541,423	(14,153,380)	466,198	(12,496,010)
Net		(13,611,957)		(12,029,812)

Change in deferred tax recognized in the income statement for 2023 and 2022 was CZK 1,582,145 thousand and CZK 220,878 thousand, respectively. As of 1 January 2024, the corporate income tax rate was increased from 19% to 21%. The Company has taken this change into account in the calculation of deferred tax as at 31 December 2023. The total change in deferred tax liability resulting from the change in the tax rate amounts to CZK 1,296,377 thousand.

15. Commitments and Contingencies

The Company has effected the following types of insurance:

- Insurance of buildings, constructions and selected movable items (transformer stations, administrative buildings);
- Insurance of civil engineering structures (very high voltage and high voltage overhead power grids).

Other types of insurance include general liability insurance, insurance for damage caused by defective products and liability insurance of management and board members.

As at 31 December 2023 and 2022, the Company had concluded contracts for future supplies of fixed assets in the amount of approx. CZK 10,672,925 thousand and CZK 10,063,890 thousand, respectively. As at 31 December 2023 and 2022, an amount of contractual liabilities for the following years comprises a contractual fee totalling CZK 10,400,865 thousand and CZK 9,801,963 thousand, respectively, for investments, CZK 269,667 thousand and CZK 255,495 thousand, respectively, for repairs and CZK 2,393 thousand and CZK 6,432 thousand, respectively, for relaying.

The Company is a party to a number of legal disputes relating to collection of a price component pertaining to costs incurred in supporting the electricity generation from renewable energy sources and combined heat and power generation (fees for "POZE – supported energy sources") in 2013. The Company's management believes that if an adverse judgment against ČEZ Distribuce, a. s. is delivered in these cases and any potential similar disputes, the Company will be entitled to claim back the fees from OTE, a.s. Therefore, the Company takes all measures necessary to prevent the Company from an unfavourable impact in the case of failure, if any.

Regarding legal disputes for POZE 1 – 3 Q 2013, there is a Supreme Court judgment from the second half of 2019 and some other judgments from 2020, in which the Court approves, in its judgment regarding similar case with different participants, the procedure applied by the Company in the respective period, i.e. that the fees should be collected also for the so-called own consumption. Also, in legal disputes for POZE 4 Q 2013, there is a final decision of the Energy Regulator regarding one of the Company disputes from the beginning of 2020 that confirms that the fees for POZE should have been collected at an amount collected by the Company.

In addition, the Company is a party to several disputes related to the connection of photovoltaic power plants to the power grid. Based on the analysis performed, the Company's management believes that the risk of losing these disputes is very small and it is unlikely that the Company would be imposed any significant obligations in the future arising from these disputes.

Eight companies claimed against ČEZ Distribuce, a. s. billing of a part of system services since 2016, which the Company re-paid to ČEPS, a.s. For 6 companies, the claims have already been settled. With effect from 1 January 2022, as a result of a change in the legislation, the disputability of the obligation to pay for part of the system services has been removed and no further claims arise from the same legal title. The receivables recorded by the Company for the period from 1 January 2016 to 31 December 2021 and which are subject to claim procedures are listed in Note 6. Again, Company's management believes that if the receivables are not collected, in these cases and any potential similar claims or disputes, the Company will be entitled to claim back the fees and accrued interest from ČEPS, a.s. Therefore, the Company takes all measures necessary to prevent the Company from an unfavourable impact of the claim process in the case of failure, if any.

16. Leases

The Company leases certain assets from categories such as Buildings, halls and constructions and also Separate movable assets and Land.

As at 31 December 2023 and 2022, assets which are being used by the Company under lease arrangements consist of the following (in CZK thousands):

Leased item	Lease term in months	Lease amount in 2023	Lease amount in 2022
Buildings, halls and constructions	18–240	195,245	193,717
Machinery and equipment	18–240	41,018	29,959
Hardware	48–72	3,625	3,604
Vehicles	48–72	14,913	13,548
Land	18–240	5,180	4,412
Total		259,981	245,240

A majority of lease agreements has been concluded for an indefinite period. The lease term in months is the usual period for which the Company intends to use the leased assets at the time the contract is signed.

17. Revenues and Expenses

The breakdown of revenues on ordinary activities is as follows (in CZK thousands):

	2023	2022
Use of grids, incl. reserved capacity at low voltage level	23,528,818	23,420,938
Support of electricity from renewable sources	49,806	8,266,212
Provided reserved capacity at very high voltage and very low voltage levels	9,310,584	9,337,229
Provision of system services	4,095,779	4,256,738
OTE charges	156,427	190,514
Other energy services	353,127	210,588
Other non-energy services	258,822	252,228
Total revenues	37,753,363	45,934,447

A vast majority of the Company's revenues comprises primarily revenues from the provision of distribution network services to customers and electricity producers and traders. The prices for services related to the provision of distribution network are subject to price regulations of the Energy Regulatory Office and were determined by the Energy Regulatory Office's price decision.

As at 31 December 2023 and 2022, of the total revenues foreign revenues were CZK 42,058 thousand and CZK 26,158 thousand from Axpo Solutions AG, organizační složka (branch), having its registered office in Praha 1, Klimentská 1216/46, whose founder is Axpo Solutions AG, having its registered office in Switzerland (Corporate ID No.: 24683515, VAT ID CHE105779348MWST, Parkstrasse 23, Baden 5401), which has a license for electricity trading. The revenues were generated from services related to the provision of distribution network.

In 2023 and 2022, the Company recorded in revenues a settlement of subsidy for operating needs totalling CZK 1,734 thousand and CZK 3,235 thousand, respectively.

The costs incurred by the Company in 2023 and 2022, respectively, include, in particular, costs of purchase of transmission and distribution services, including electricity purchased to cover power grid losses (CZK 13,199,184 thousand and CZK 21,698,323 thousand), which are subject to price regulation of the Energy Regulatory Office, costs of purchase of other energies, materials and services related to the operation and maintenance of the power grid (CZK 5,003,623 thousand and CZK 4,483,482 thousand), personnel expenses (CZK 5,402,437 thousand and CZK 5,234,281 thousand) and capitalization of accumulated cost (CZK 1,599,824 thousand and CZK 1,302,102 thousand).

In 2023, a reduction in the price for the POZE charge to zero was in effect as of 1 October 2022; as a result, this had a significant impact on expenses and revenues with no effect on the Company's profit or loss.

Statutory auditor's fees are disclosed in the consolidated financial statements of ČEZ, a. s.

18. Personnel and Related Expenses

The breakdown of personnel expenses is as follows (in CZK thousands):

	2023		2022	
	Total (incl. statutory bodies)	Members of management, supervisory and administrative bodies	Total (incl. statutory bodies)	Members of management, supervisory and administrative bodies
Average number of employees*	4,606	11	4,597	11
Wages and salaries	3,745,359	36,089	3,616,740	30,398
Social security and health insurance	1,275,869	6,916	1,230,838	5,267
Social cost	381,209	1,395	386,703	2,207
Total personnel expenses	5,402,437	44,400	5,234,281	37,872

* Average recorded number of employees recalculated in physical persons as per the length of their working time to full working time set by the employer.

The members of statutory bodies received total bonuses and other remuneration of CZK 871 thousand and CZK 792 thousand in 2023 and 2022, respectively.

Members of statutory bodies have benefits consisting of using company cars for private purposes, contributions to life insurance and bonuses. Members of management have benefits consisting of using company cars for private purposes.

19. Related Party Information

The members of management, supervisory and administrative bodies were granted no advances, earnest money, loans, borrowings, guarantees or other benefits (except using the automobiles and telephones for private purposes) in 2023 and 2022 and they do not hold any shares of the Company.

Related parties specified in the tables below are companies of the ČEZ Group.

As at 31 December 2023 and 2022, receivables – controlled and controlling entity in the amount of CZK 6,238,885 thousand and CZK 7,714,196 thousand, respectively, represent the balance of cash in the cash pooling system (see Note 6).

The Company has loans granted by the parent company (see Note 11).

The Company provides services to related parties.
